STAFF ALERT SOLUTIONS COMPARISON

Vender Name	1. Technologies utilized by the solution (for location and communication) include...	2. The solution provides updated location once the staff alert device has been activated	3. The staff alert device is activated by...	4. Responders are notified of an alert by...	5. The staff alert device is powered by...
ASSA ABLOY Global Solutions	Bluetooth, Cellular/LTE, Wi-Fi	Yes	Single Button, Multiple Buttons	Audio Alarm/Chirp/Beep in Notifications Portal, Visual Alert in Notification Portal, Text	Non-replaceable battery (dispose or return required)
AT&T	Bluetooth, Cellular/LTE, Ultrasonic	Yes	Multiple Buttons	Audio Alarm/Chirp/Beep in Notifications Portal, Visual Alert in Notification Portal, Email, Text	Non-replaceable battery (dispose or return required)
Creating Revolutions	Cellular/LTE, NPC/RFID (Near Field Communication, Radio Frequency Identification), Wi-Fi	Yes	Single Button, Multiple Buttons, Lack of Motion, Voice, Real-Time Continuous, Artificial Intelligence Analysis, Environmental Sensing and Health Monitoring	Audio Alarm/Chirp/Beep in Notifications Portal, Visual Alert in Notification Portal, Email, Push Notification, Haptic Feedback for Privacy Alerting, Apple & Google Certified Critical Alerts	Rechargeable battery, devices are swappable, with instant employee credential transfer, when a battery low alert is sent to management and employee, so it can be swapped in one second with a fully charged unit
Enseo	Bluetooth, Cellular/LTE, Wi-Fi	Yes	Single Button, Multiple Buttons	Audio Alarm/Chirp/Beep in Notifications Portal, Visual Alert in Notification Portal, Email, Test	Replaceable battery
PwC	Bluetooth, Cellular/LTE, LP-WAN (Low Power Wide Area Network), Wi-Fi	Yes	Multiple Buttons	Audio Alarm/Chirp/Beep in Notifications Portal, Visual Alert in Notification Portal, Email, Text	Replaceable battery, rechargeable battery, option to either a replaceable battery or a rechargeable battery
React Mobile, Inc.	Bluetooth, Cellular/LTE, GPS, Multiple Radio Frequencies Spectrums, Wi-Fi	Yes	Single Button, Voice	Audio Alarm/Chirp/Beep in Notifications Portal, Visual Alert in Notification Portal, Email, Text, Push Notification	Replaceable battery, rechargeable battery, non-replaceable battery (dispose or return required)
ROAR for Good	Bluetooth, Cellular/LTE, Wi-Fi	Yes	Single Button	Audio Alarm/Chirp/Beep in Notifications Portal, Visual Alert in Notification Portal, Push Notification	Rechargeable battery
SECURalert	Multiple Radio Frequencies Spectrums, Ultrasonic, No Wi-Fi - Self Contained Autonomous Supervised & Redundant Network	Yes	Multiple Buttons, Fall Down Detection, Test Button, Call Escalation Available on Transmitter	Audio Alarm/Chirp/Beep in Notifications Portal, Visual Alert in Notification Portal, Email, Text, Push Notification and More	Rechargeable battery, replaceable battery models also available
TraknProtect	Bluetooth, Cellular/LTE, GPS, Wi-Fi	Yes	Single Button	Audio Alarm/Chirp/Beep in Notifications Portal, Visual Alert in Notification Portal, Email, Text, Push Notification	Non-replaceable battery (dispose or return required)
Vocera	Wi-Fi, Integrations with RTLS	Yes	Single Button, Voice	Audio Alarm/Chirp/Beep in Notifications Portal, Text, Push Notification, Can also call a phone line	Rechargeable battery

Vender Name	6. Additional peripheral equipment is powered by...	7. Accuracy expectations	8. Monitoring and/or support services include...	9. Staff alert device is required to be in the proximity of a smartphone or tablet for the solution to operate	10. The solution tracks an employee when the staff alert device is not activated
ASSA ABLOY Global Solutions	Non-replaceable battery (dispose or return required), PoE (Power Over Ethernet), Mains Power/Wall Outlet	From 11-20FT	24/7 Proactive Equipment Monitoring, 24/7 Technical Support	Not Required	No
AT&T	Replaceable battery, Non-replaceable battery (dispose or return required), Mains Power/ Wall Outlet	From 1-10FT	24/7 Proactive Equipment Monitoring, 24/7 Technical Support	Not Required	No
Creating Revolutions	Additional peripherals require ZERO power, only staff device requires power so infrastructure implementation is instant	From 1-10FT	24/7 Technical Support	Not Required	Yes, This is a configurable option and can be disabled
Enseo	PoE (Power Over Ethernet), Mains Power/Wall Outlet	From 1-10FT, From 11-20FT	24/7 Proactive Equipment Monitoring, 24/7 Technical Support	Required	No
PwC	PoE (Power Over Ethernet), Mains Power/Wall Outlet	From 1-10FT, Same Floor	24/7 Proactive Equipment Monitoring, 24/7 Technical Support	Not Required	No
React Mobile, Inc.	Replaceable battery, Rechargeable battery, Non-replaceable battery (dispose or return required)	From 1-10FT, From 11-20FT	24/7 Proactive Equipment Monitoring, 24/7 Alert Monitoring (Emergency Dispatch), 24/7 Technical Support	Not Required	No, This is a configurable option and can be disabled
ROAR for Good	Replaceable Battery	From 1-10FT	24/7 Proactive Equipment Monitoring, 24/7 Technical Support	Not Required	No
SECURalert	PoE (Power Over Ethernet), Battery, Main Power or PoE options are available for all components	From 1-10FT	24/7 Proactive Equipment Monitoring, 24/7 Technical Support	Not Required	No, This is a configurable option and can be disabled
TraknProtect	Mains Power/Wall Outlet	From 1-10FT	24/7 Proactive Equipment Monitoring, 24/7 Alert Monitoring (Emergency Dispatch), 24/7 Technical Support	Not Required	No
Vocera	Works off current Wireless Infrastructure	From 1-10FT, From 11-20FT, From 21-50 FT, More than 50FT, Same Floor	24/7 Technical Support	Not Required	This is a configurable option and can be disabled
