Index of IDC Monograph and Feature Articles Volumes 10-19

The *IDC Quarterly* has a rich tradition of presenting thought-provoking, timely, educational articles to the defense bar of Illinois. This award winning legal journal is a well-respected piece of the legal landscape in Illinois and the country. Our reputation for excellence is based upon years of excellent submissions from our members.

As the *IDC Quarterly* enters its third decade of service to the defense bar, we wanted to highlight the Feature Articles and Monographs that have appeared in the *Quarterly* in the past decade. All of these submissions are available on our website, www.iadtc.org, and may be searched in our Library according to the Volume, Issue and Page Number key listed with the article title. For example, when you search the *IDC Quarterly* archives using key 14.3.24, your search will generate the Feature Article “A ‘Quick-Hit’ Guide to Dealing With Economists.”

We are very fortunate to have had the opportunity to present these pieces and many others to you over the years. We offer our sincere thanks to the many editors and authors who have made this journal what it is today.
