"Solidarity is based on the principle that we are willing to put ourselves at risk to protect each other." ~ Starhawk

During this time of change and challenge, we want to take a moment and recognize the heroes in our communities. To the paramedics, nurses, doctors, pilots, and all medical and operational personnel taking care of the sick and injured; to the essential workers supporting the logistics and availability of critical items like food, cleaning, and medical supplies; to the brilliant minds that are continuously analyzing the crisis, searching not only for a solution but prevention; you are the heroes.

While every day brings new messaging, a new corner to turn, a new face to a crisis, a central theme has been and will continue to be the focus on community. Please know that we stand with you, appreciate you, and support you. The risk and sacrifice that you assume do not go unnoticed, we thank you, and together we will get through this.

We would ask that anyone impacted by recent events, as a sign of solidarity, consideration, and resilience, show your support through placing a white light in your window or somewhere visible at night. Let the white light symbolize appreciation, a marker for hope, and a reminder to those heroes selflessly supporting our communities.

Together with our partners, stay strong, keep well.
