2017-18 Mentoring Timeline and Checklist

The Mentoring Committee has prepared the timeline below to help mentors and mentees participating in the CLE Track Program meet the requirements to qualify for six hours of professionalism credit (including eight meetings for a cumulative six hours over the course of the year). The Timeline can also be used by mentors and mentees in the Non-CLE Track Program to make the mentoring experience more worthwhile.

The Timeline is intended to be used as a checklist to keep mentors and mentees on track to receive professionalism CLE credit. The timing and activities listed are only suggestions. Mentoring pairs are free to engage in other activities that are more appropriate for them or fit better within their schedule, as long as all five categories of activities are included if the mentor and mentee are on the CLE Track. Mentors and mentees should schedule their meetings to best accommodate their personal schedules as long as they have eight meetings in addition to the orientation. (In certain circumstances, if mentoring pairs do not live within a commutable distance or if they demonstrate a compelling need, they may be permitted to meet via video-assisted communication.) Those participating in the CLE Track Program should review the requirements that are summarized on the Mentoring Page of the IAHA website at: [Link to IAHA Mentoring Page](#). The schedule suggested below is designed to assure all five categories of activity required by the ILSCCP are completed. The order in which the categories are completed is unimportant as long as the mentoring pair completes one activity in each of the five categories.
