THE GLOBAL BUSINESS COMMUNITY
FOR MICROSOFT CHANNEL PARTNERS

International Association of
Microsoft Channel Partners™

INTRODUCTION

The International Association of Microsoft Channel Partners (IAMCP) is the leading organisation for business networking in the Microsoft partner eco-system with 100+ chapters in over 40 countries around the globe. IAMCP members represent the trusted, independent voice of the Microsoft partner community.

IAMCP members have the ability to influence Microsoft, government legislators and the media. Through regular activities and online events, members are able to discuss partner experiences, share best practices, and learn from colleagues in order to improve and develop their businesses.

JOIN IAMCP TODAY!

If you are serious about your partnership with Microsoft and want to maximise the opportunities available, joining the IAMCP should be a natural part of your business strategy. It is almost certainly one of the best investments you will make and is the reason why IAMCP continues to grow its membership and develop a thriving partner community around the globe.

The IAMCP has established itself as the principal advisory body when it comes to helping partners understand the new strategies and business models being advocated by Microsoft.

The IAMCP represents Microsoft's best of breed partners from around the globe. Our organisation was formed in 1994 and provides Microsoft Partners a voice into Microsoft programmes and strategy, to the IT community at large, as well as a vehicle to facilitate mutual growth and business development among partners.

The non-profit organisation is operated by an annually elected board of directors, and is funded through membership fees and sponsor grants.

Our aim is to provide a range of services to support the P2P efforts of our members, provide education services, allow members to share in advocacy initiatives and to support local communities by facilitating partners to give their time and expertise as well as through charitable efforts.

IAMCP is helping Microsoft Partners around the world to develop new business opportunities and grow their businesses.

I KNEW MICROSOFT WOULD BE KEY TO OUR COMPANY'S GROWTH. LEVERAGING IAMCP HELPED US UNDERSTAND HOW TO ACHIEVE GOLD COMPETENCY STATUS QUICKLY AND EFFICIENTLY.

IAMCP is a great way for partners to connect with and influence Microsoft. We rely on insight from groups like the IAMCP to maximize the impact of our partner programs and marketing investments. Connecting with this group of smart and engaged partners also helps to develop a strong peer-to-peer network, a vital ingredient for a strong, scalable business.

GAVRIELLA SCHUSTER

*Microsoft Corporate Vice President,
Worldwide Partner Group*

IAMCP VALUE TO MEMBERS

We work in close collaboration with Microsoft so that we can help align partner planning and strategy with Microsoft Go-To-Market campaigns. The IAMCP is constantly innovating and driving new initiatives that help partners realise substantial business benefits.

BENEFITS

PROVIDE A STRONG VOICE LOCALLY, NATIONALLY AND INTERNATIONALLY TO INFLUENCE MICROSOFT PARTNER AND MARKETING PROGRAMMES

IAMCP is a respected source of partner feedback to Microsoft at all levels - international, national, regional, district and local. Our members, both individually and through IAMCP, offer partner perspectives on Microsoft programmes, initiatives, and strategies that impact our businesses daily and give us an opportunity to guide and shape the creation of programmes.

RECEIVE UNIQUE AND EARLY KNOWLEDGE OF MICROSOFT'S PROGRAMMES AND DIRECTIONS

Advance knowledge of Microsoft's initiatives lets IAMCP members align their business early enough to be delivering well before the day of launch.

GET EARLY ACCESS TO TRAINING AT REDUCED COSTS

Microsoft recognises IAMCP members as valued partners who have made an investment in Microsoft technologies and practices. In return, Microsoft reciprocates and offers early access to training at significantly reduced rates, and in some cases free of charge.

WORK MORE CLOSELY WITH MICROSOFT IN ENGAGING THEIR FIELD STAFF

Many partners find Microsoft a challenging organisation to navigate. IAMCP leaders have substantial experience working with Microsoft at many levels, and work closely with new members to help them find their way around the organisation and connect with the right people.

IAMCP helped us to make partner to partner connections so we could rapidly develop our sales network - we were able to establish contacts in 8 countries and set up our channel within as many days!

*DID YOU KNOW? - IAMCP IS THE WORLD'S
LARGEST COMMUNITY OF MICROSOFT PARTNERS.*

*IAMCP IS THE ESTABLISHED LEADER IN P2P BUSINESS NETWORKING
FOR THE MICROSOFT ECOSYSTEM. EVERY DAY AN IAMCP ACTIVITY
IS TAKING PLACE SOMEWHERE IN THE WORLD.*

RECEIVE MENTORING TO ELEVATE YOUR PARTNER STATUS

Both Microsoft and IAMCP are dedicated to growing IAMCP members' businesses. We work with members to help them engage in the partner community and advise them on ways to make the most of being part of the Microsoft Partner Network.

LEVERAGE MICROSOFT'S BRAND THROUGH THE IAMCP AND DIFFERENTIATE YOUR COMPANY

Microsoft is a brand name recognised around the world. Leveraging this brand through the IAMCP can establish your firm as an elite IT provider with unparalleled access to Microsoft services and support.

GAIN ACCESS TO BUSINESS BEST PRACTICES

IAMCP provides information and experts to assist members in areas outside of technical development including business strategy, legal, marketing, financial, human resources, health care and other areas of concern to business owners and managers.

BROADEN YOUR SOLUTION OFFERINGS THROUGH PARTNERING

Many clients desire a single point of contact for managing IT efforts. However, most partners focus on one or two key delivery areas. IAMCP fosters partnering among members as a way to expand service offerings while focusing on core competencies.

TO BUILD COMMUNITY RELATIONSHIPS AND DEVELOP BUSINESS OPPORTUNITIES

Since business is based on trust, IAMCP members foster a community built on mutual understanding and respect. The relationships among members and Microsoft representatives enhance visibility and encourage referrals for business opportunities.

SATYA NADELLA IS A MEMBER; YOU SHOULD BE TOO!

HOW WE HELP OUR MEMBERS

IAMCP can help you in a number of crucial areas:

- **Navigating the Microsoft infrastructure**
- **Engaging with Microsoft's local partner account teams and executives**
- **Attending exclusive roundtable events**
- **Sharing best practices for gaining competencies**
- **Driving business development programmes**
- **Advising on business strategy**
- **Aligning marketing activities**
- **Maximising the value of Pinpoint**
- **Understanding the MPN Portal and resources**
- **Establishing contacts globally**

Your roadmap to success is simple with IAMCP.

YOUR VOICE INTO MICROSOFT

One of the key ways IAMCP members have a direct voice in to Microsoft is through PartnerPulse. The PartnerPulse Report is delivered to Microsoft Executives on a quarterly basis and truly represents the "pulse" of the partner ecosystem as a whole. Being one of Microsoft's only sources of unsolicited feedback from partners, the PartnerPulse report is a highly valued document and is well respected amongst senior management in Microsoft.

OPTIMISING MICROSOFT'S CLOUD POWER

IAMCP is closely aligned to Microsoft's Cloud Power Program. By embracing the cloud we can assist you in supporting your customer needs. Take advantage of the Cloud Power Program by engaging in our workshops; leverage the benefits and resources including: online sales tools, partner preferred pricing models, Marketplace participation (Pinpoint) training platforms and marketing resources.

Worldwide spending on public cloud services will grow at a 19.4% compound annual growth rate (CAGR) -- almost six times the rate of overall IT spending growth – from nearly \$70 billion in 2015 to more than \$141 billion in 2019.

IDC JANUARY 2016

IAMCP is crucial to our business in developing new P2P connections and in providing us with a voice back to Microsoft in Redmond...IAMCP is a wonderful community!
