For all types of publishers – for you.
What will you get? Choose the best-of-breed approach to managing Editorial processes

More than 6 million titles with over 1,400,000 royalty statements are handled using the Klopotek system annually. Klopotek TEP (Title Management, Editorial, and Production) ensures the successful planning and marketing of digital and physical products for all types of publishers.

How does it work? State-of-the-art support for your publishing processes at low cost

As Klopotek Cloud makes use of a shared organization and infrastructure, it is a cost-effective alternative to operating a system on premise. Your data is available to you only; our data centers provide a high level of security.

Start working immediately, in an easy way, using a configuration based on best practices; the number of your processes in the Cloud can grow with your business requirements.

STREAM, our modern, cloud-based platform for a great User Experience on any type of device, is operated on a shared instance (available 24/7) providing process optimization and a fast roll-out.

Training made easy

During your 4-week trial period, you’ll get one hour of daily training for two weeks from one of our experts. A Q/A session concludes each week. After the trial period information sessions continue and are available for free for IBPA members. Additionally, in-depth training can be ordered to take place in the form of personal workshops or as web training sessions.

Klopotek Cloud makes use of STREAM technology. The learning curve for STREAM is minimal, so users are trained and can be productive in short time. Plus, as a result of our unified design approach, if you know how to use one app, you know how to use all apps.

Opting for Klopotek Cloud (standard version) will give you 24/7 access to these STREAM web apps
