NEW ICRI FELLOW FOR 2009

FRED GOODWIN
Fred Goodwin is a Fellow Scientist in the R&D division of BASF Construction Systems. Goodwin is a chemist with over 30 years of experience in the construction chemicals industry, including cement manufacturing, research, development, and technical support of grouts, adhesives, coatings, shotcrete, stucco, flooring, and concrete repair materials. He holds several U.S. patents.

Goodwin is very active in several industry associations. He is the Chair of ICRI’s Repair Materials and Methods Committee, and was the primary author for the ICRI Technical Guideline No. 320.3-2004 (formerly No. 03740), “Guide for Repair Material Data Sheet Protocol.” He served two terms on ICRI’s Technical Activities Committee and currently serves on several other ICRI Committees. Within ASTM International, he serves as Chair of ASTM C09.68, Volume Change, and is an active member of ASTM C1, C9, and C15 committees, serving on several subcommittees as well. As a member of the American Concrete Institute (ACI), Goodwin serves as Chair of ACI Committee 364, Rehabilitation, and serves on several other ACI committees, including 562, Evaluation, Repair, and Rehabilitation of Concrete Buildings.

Goodwin is also a member of the Society for Protective Coatings (SSPC), National Association of Corrosion Engineers (NACE), and the Strategic Development Council (SDC) of the ACI Foundation. He is currently a delegate for the U.S. to ISO TC71, SC6, 7, 8.

Goodwin is a frequent speaker at ICRI, ACI, and SSPC national convention sessions, and serves as a lecturer at the Colorado School of Mines Grouting Fundamentals and Current Practice short course and at the Mechanical Learner Class of Pennsylvania State McKeesport campus. He was the recipient of the 2006 Editors Award from SSPC’s Journal of Protective Coatings and Linings.
