Information about the award program, the guidelines, and how to apply.

Become recognized as a leader in the funeral service profession

The Illinois Funeral Directors Association has established an awards program as a way to identify the exemplary and enduring contributions our members make to the communities they serve and the funeral service profession.

The Illinois Award of Funeral Service Distinction has been instituted to recognize members for their outstanding contributions and achievements in select areas and to promote initiatives in social and educational areas.

By acknowledging these awardees, we also use their body of work to inspire our future generation of leaders to higher levels of achievement. These firms personify the commitment to excellence and service and bring distinction to themselves and to IFDA.

An outstanding public relations program for your funeral home

The Illinois Award of Funeral Service Distinction is for firm members; it is not for the individual funeral director. Firm members have the opportunity to qualify each funeral home or branch for recognition individually. A separate application and entry must be received for each location seeking recognition. Entries must demonstrate proficiency in four vital areas of funeral service.

Award Certificates will be presented at the Annual Convention to those who have successfully achieved the criteria. **Press releases will be sent on behalf of awardees announcing their achievement.** Trophies are also available at an additional fee.
