THE 4TH AFIIA UNIVERSITY

25 - 26 May 2026

Cape Town International Convention Centre

PROGRAMME

African Federation of
Institutes of Internal Auditors

Hosted by:

The Institute of
Internal Auditors
South Africa

About AFIIA

Established on 8 May 2009, the African Federation of Institutes of Internal Auditors (AFIIA) unites African IIA members to address common issues, foster collaboration, and strengthen the internal audit profession across the continent.

Objective

Objective The objective of the 4th AFIIA University is to equip internal audit practitioners with practical tools, techniques, and insights to strengthen their competence and enhance their credibility within their organisations. Participants will explore key topics including combined assurance, leveraging data analytics to improve audit quality, translating audit insights into business impact, and assessing governance and ethical culture. The programme will also cover emerging areas such as AI in internal audit, business resilience, QAIP implementation, and topical risks including cybersecurity and third-party risk. Through these sessions, attendees will be empowered to position themselves as trusted advisors who add strategic value and influence organisational outcomes.

Pre-registration

Skip the queue on Monday morning and pre-register on **Sunday, 24 May 2026, 14h00 until 17h00**, and get a chance to mingle with the IIA SA staff.

Important Note

There will be two groups, with the same speakers rotating across both groups over the two days. This structure is designed to ensure a more engaging and interactive experience for all delegates.

THE 4TH AFIIA UNIVERSITY
