

FREE C.E. CREDIT COURSE

COURSE TOPIC: Ethics
COURSE CREDIT: Three Hours
COURSE NUMBER: 90420

WHAT WILL YOU LEARN?

This course will be covering the ethical situations that may arise on and off the job. Each and every day are faced with decisions that we make that could cause harm to others, or ourselves. Facing ethical decisions can be a very difficult, especially with the types of decisions that may seem correct at first, but we later find out were not so great.

The course will also lead into many topics of discussion that will cause you to truly evaluate what it is that leads you to certain decisions that you will or have made. We will discuss workplace instances that may challenge us on what we feel morally is the right thing to do. We also will explore different definitions to words that we use in conjunction with our ethical decision-making.
