

# Education Sponsors Needed

IIATC is launching its first in-house National Alliance designation update program, exclusive to IIATC members only. Dues-paying National Alliance members will have the opportunity to register for a TWO-DAY class (versus the typical three-day course) that qualifies for a CIC, CRM, CISR, or CSRSM annual update. The program is limited to 40 participants and will be hosted in Fort Worth on May 3-4, 2017.

Sponsorship dollars will help cover the cost of the facility, along with food and refreshments served during morning and afternoon breaks.

We are offering this course as an answer to the need expressed by our agency members. Many of our members hold these designations and with the limited opportunities to attend a class in Tarrant County, we feel this will be a very popular program. Please consider helping to make it a success!
