Join a Standards Committee Here

Announcing

Are you interested in volunteering for IICRC standards work? IICRC is looking for volunteers to join our Standards Committees to help create and update our standards and field guides. There are currently nine IICRC Standards Committees, including:

- Water Restoration
- Fire and Smoke Restoration
- Inspection, Cleaning and Restoration
- Mold Remediation and Preventive Maintenance
- Industrial Hygiene
- Industrial Hygiene Field Guide
- Water Restoration Field Guide
- Fire and Smoke Restoration Field Guide
- IICRC Master Designation in Textiles, Fire and Smoke Restoration

Contact the IICRC at 1-888-625-8342 or standards@iicrc.org to get involved! There are currently nine IICRC Standards Committees seeking volunteers.

The IICRC is also seeking volunteers for its Standards Consensus Body, which is responsible for overseeing the development and maintenance of the IICRC standards and field guides. If you are interested in serving on the Standards Consensus Body, please contact the IICRC at 1-888-625-8342 or standards@iicrc.org.

New You! New Year, New You!

IICRC Master Designation in Textiles, Fire and Smoke Restoration

As technicians accumulate various Certifications, they become eligible for advanced designations such as the IICRC Master Designation in Textiles, Fire and Smoke Restoration. To advance your career, the IICRC offers a variety of Certifications and designations. Visit IICRCCert.org to find a course nearest you and advance your career.

Hurricane Season 2019

This year's hurricane season produced 18 named storms, three of which became major hurricanes. The estimated cost in damages in the U.S. from the 2019 hurricane season was $22 billion, with an additional $5 billion in the Bahamas. The largest fire among them was the Kincade Fire which burned 77,758 acres in Sonoma County, CA. A total of 4.7 million acres were burned by more than 47,000 wildfires across the U.S. in 2019. The season was $22 billion, with an additional $5 billion in the Bahamas.

Temperature and Weather Extremes

The IICRC highlighted its own seven roads to success in the Inspection, Cleaning and Restoration Industry. The article highlights the need for labor workers and maintenance managers to be aware of temperature and weather extremes in the U.S. The article features three temperature record-breakers: the highest temperature on record was recorded in Death Valley, CA, while the lowest temperature on record was recorded in West漠, AK. The article also features two rainfall record-breakers: the largest rainfall event in the U.S. was recorded in the state of Arizona, while the largest rainfall event in the world was recorded in the state of Mississippi.

Are you a Certified Firm or Triple Master interested in being in our Spotlights section of the IICRC's News You Can Use newsletter? Contact the IICRC at 1-888-625-8342 or news@iicrc.org to submit your application.
