About Frank Pedeflous - Biography

Frank’s path to owning and leading Omegasonics started at California Polytechnic State University (Cal Poly) where he graduated in 1981 with a degree in Electrical Engineering. In 1996, he purchased a company that used ultrasonic technology to clean window blinds. At that time, Frank knew ultrasonic was the cleaning technology of the future and that there was a large potential industrial market waiting to gain access to it. Frank is considered a leader in the ultrasonic industry and speaks around the world.
