To IICRC Certified Firms and Technicians,

As reported by the National Hurricane Center, Hurricane Dorian continues to move north. It has impacted the coasts of Florida and the Carolinas and is now approaching portions of southeast Virginia. Strong winds and a high risk of significant flash flooding are expected.

Stay Informed

We understand that catastrophes can send people's lives into chaos. The IICRC has gathered pertinent information for consumers to stay informed in times of need. For tips to keep you and your family safe, we recommend "[Be Informed: Hurricanes](#)" and "[Be Informed: Floods](#)".

Resources You Can Use

Visit our [Disaster Resources page](#) for everything you need to know during and after a natural disaster including "[10 Things to do After a Hurricane Strikes](#)".

Our thoughts and prayers are with those affected by Hurricane Dorian.

Pete Duncanson,
IICRC Chairman of the Board
