

Industry Summit, September 17-18, 2018, in St. Petersburg, Florida

Goals: The annual Industry Summit is an opportunity for industry technology leaders to engage in free-flowing discussion with leaders of COSCA, NACM, and CITOC, and representatives from the IJIS Institute, NCSC, and the Administrative Office of the United States Courts. The objective of this two-day event is to provide industry with insights on the current and emerging technology needs of the courts over the next two to six years. Working side by side, court and industry technology leaders will identify business problems, brainstorm opportunities, and chart a course for future court technology.
