

ILTA Bibliography of PhDs in Language Testing

This bibliography is provided by ILTA as a service to students of language testing. In order to ensure that it is as comprehensive as possible, when you complete your PhD, or if you know of any others that have not been included, please send the bibliographic details to t.brunfaut@lancaster.ac.uk . The bibliography is updated annually.

- Abdur-Rahman, Muhibullah (2012) Second language test-takers' writing performance across two rhetorically varied writing prompts: a text-analytic validation study. University of Bristol.
- Abeywickrama, Priyanvada (2007) Measuring the knowledge of textual cohesion and coherence in learners of English as a Second Language. University of California, Los Angeles.
- Abu Bakar, Kaseh (2008) Rasch calibration of Arabic reading diagnostic test items. International Islamic University Malaysia.
- Afitska, Oksana (2008) A formative perspective on teaching and assessment: supporting and promoting linguistic development of young ethnic minority children in English primary schools. University of Bristol.
- Akiyama, T. (2004) Introducing speaking tests into a Japanese Senior High School entrance examination. The University of Melbourne.
- Aksit, Zeynep (2018) Validating aspects of a reading test. Middle East Technical University.
- Al Fraidan, Abdullah (2011) Test-taking strategies of EFL Saudi university level learners on two varieties of gap-filling vocabulary achievement tests. University of Essex.
- Alavi, Sayyed Mohammad (1997) An investigation of the usefulness of rhetorical structure theory in testing reading comprehension. Lancaster University.
- Alkhelaiwi, Sahar (2017) Cognitive processes, sub-skills and strategies in academic lecture listening at a Saudi Arabian university: A needs analysis study. Lancaster University.
- Allan, Alistair (1992) EFL reading comprehension test validation: investigating aspects of process approaches. Lancaster University.
- Al-Lawati, Zahra (2014) An investigation of the characteristics of language test specifications and item writer guidelines and their effect on item development. Lancaster University.
- Al-Zadjali, Rima (2008) The integrated assessment of reading and writing: Investigating test products and processes in an EFL context. Lancaster University.
- Ameriks, Yoko S. (2009) Investigating validity across two test forms of the Examination for the Certificate of Proficiency in English (ECPE): A multi-group structural equation modeling approach. Teachers College, Columbia University.
- Ashton, Karen (2009) Comparing proficiency levels in an assessment context: the construct of reading for secondary school learners of German, Japanese and Urdu in England. Cambridge University.
- Assiri, Mohammed (2011) Test-taking strategy use on the reading section of the TOEFL-iBT: A study of Arab ESL learners. Oklahoma State University.
- Baba, Kyoko (2007) Dimensions of lexical proficiency in writing summaries for an English as a foreign language test. Ontario Institute for Studies in Education, University of Toronto.
- Bae, Jungok (2000) The construct validation of certain components of English and Korean writing in children participating in either a two-way immersion program or monolingual classes: a writing assessment and latent variable approach. University of California, Los Angeles.
- Baker, Beverly (2011) In the service of the stakeholder: A critical, mixed-method program of research in high-stakes language assessment. McGill University.
- Ballard, Laura (2017) The effect of primacy on rater cognition: An eye-tracking study. Michigan State University.
- Banerjee, Jayanti (2003) Interpreting and using proficiency scores. Lancaster University.
- Barati, Hossein (2006) A construct-based approach to the nature of reading: the case of understanding, developing and validating reading skills. University of Bristol.

- Batty, Aaron Olaf (2017) The impact of visual cues on item response in video-mediated tests of foreign language listening comprehension. Lancaster University.
- Benjamin, T. (2013) Signaling trouble: On the linguistic design of other-initiation of repair in English conversation. University of Groningen.
- Berry, Vivien (2004) A study of interaction between individual personality differences and oral performance test facets. King's College, University of London.
- binti Othman, Normah (2006) Assessment of direct writing in ESL classrooms in selected Malaysian secondary schools. Universiti Putra Malaysia.
- Booth, Dawn (2012). Exploring the washback of the TOEIC in South Korea: A sociocultural perspective on student test activity. The University of Auckland.
- Bosker, Hans Rutger (2014) The processing and evaluation of fluency in native and non-native speech. Utrecht University.
- Bower, Jack (2015) Setting and raising standards: creating and validating institutional standardized English reading and listening tests aligned to the Common European Framework Levels A2-B1 at a Japanese university. Macquarie University.
- Brown, Anne D. (2004) Interviewer variability in oral proficiency interviews. The University of Melbourne.
- Brunfaut, Tineke (2008) Foreign language reading for academic purposes: students of English (native speakers of Dutch) reading English academic texts. University of Antwerp.
- Buck, Gary (1991) The testing of listening comprehension: an introspective study. Lancaster University.
- Carr, Nathan (2003) An investigation onto the structure of text characteristics and reader abilities in a test of second language reading. University of California, Los Angeles.
- Chan, Sathena Hiu Chong (2013) Establishing the validity of reading-into-writing test tasks for the UK academic context. University of Bedfordshire.
- Chapman, Mark (2016) The effect of the prompt on writing product and process: a mixed methods approach. University of Bedfordshire.
- Chen, Ann Shih-yi (2010) The role of learner involvement in the assessment process: A multiple-case study investigating the impact of two approaches to student assessment on adult students' learning of oral English. University of Cambridge.
- Chen, Yu-Hua (2009) Investigating lexical bundles across learner writing development. Lancaster University.
- Cheng, Liying (1998) The washback effect of public examination change on classroom teaching. University of Hong Kong.
- Cheung, K Y F (2014) Understanding the authorial writer: A mixed methods approach to the psychology of authorial identity in relation to plagiarism. University of Derby.
- Cho, Dongwan (1995) The effect of specificity of language test specifications on item construction. University of Illinois at Urbana-Champaign.
- Cho, Yeonsuk (2001) Examining a process-oriented writing assessment in a large-scale ESL testing context. University of Illinois at Urbana-Champaign.
- Clapham, Caroline (1994) The effect of background knowledge on EAP reading test performance. Lancaster University.
- Clark, Tony (2018) Bridging the gap: The relationship between intensive IELTS writing preparation in China and Japan and 'relearning' academic conventions. University of Bristol.

- Colby-Kelly, Christian (2011) Using "Assessment for Learning" practices with pre-university level ESL students: A mixed methods study of teacher and student performances and beliefs. McGill University.
- Coombe, Christine (1992) The relationship between self-assessment ratings of functional literacy skills and basic English skills test results in adult refugee ESL learners. The Ohio State University.
- Cordova, Pedro (2001) Learners' input on L2 testing: an issue of washback. Spanish, Italian and Portuguese. University of Illinois at Urbana-Champaign.
- Corrigan, Michael (2015) Construct representation of First Certificate in English (FCE) reading. University of Bedfordshire.
- Cotos, Elena (2010) Automated writing evaluation for non-native speaker English academic writing: The case of IADE and its formative feedback. Iowa State University.
- Csepes, Ildiko (2003) Measuring oral proficiency through paired performance. Eötvös Loránd University.
- Daftarifard, Parisa (2016) Reading comprehension as an interactional ability: Evidence from task based versus response based intervention. Islamic Azad University.
- Dakin, Jee Wha (2010) Investigating the simultaneous growth of and relationship between grammatical knowledge and civics content knowledge of low-proficiency adult ESL learners. Teachers College, Columbia University.
- Dávid, A. Gergely (2000) The use of multitrak items and a small-group oral in the context of the Hungarian higher education. University of Glamorgan.
- De Jong, John H.A.L. (1991) Defining a variable of foreign language ability: an application of item response theory. Twente University.
- Delieza, Xenia (2014). The impact of oral examiners' conduct on candidates' performance: The case of the KPG exam in English. National and Kapodistrian University of Athens.
- Deygers, Bart (2017) Assessing high-stakes assumptions. A longitudinal mixed-methods study of university entrance language tests, and of the policy that relies on them. University of Leuven.
- DiGennaro, K. (2011) An exploration into the writing ability of generation 1.5 and international second language writers: A mixed methods approach. Teachers College, Columbia University.
- Dimitrova-Galaczi, Evelina (2004). Peer-peer Interaction in a paired speaking test: the case of the First Certificate in English. Teachers College, Columbia University.
- Djiwandono, Patrisius (1998) The relationship between EFL learning strategies, degree of extroversion, and oral communication proficiency. State University of Malang.
- Dragemark Oscarson, Anne (2009) Self-assessment of writing in learning English as a foreign language. A study at the upper secondary school level. University of Gothenburg.
- Du Plessis, C. L. (2017) Developing a theoretical rationale for the attainment of greater equivalence of standard in the Grade 12 Home Language exit-level examinations. University of the Free State.
- Duan, Y. (2007) The Influence of the Chinese University Entrance Exam (English). University of Kent.
- Ducasse, A. (2009) Assessing interaction in paired oral proficiency assessments in Spanish. The University of Melbourne.
- Dunlea, Jamie (2015) Validating a set of Japanese EFL proficiency tests: demonstrating locally designed tests meet international standards. University of Bedfordshire.

- Dunn, Karen (2014) What makes L2 words difficult to know? Using Explanatory Item Response Theory to model the difficulty of vocabulary test items for learners of English as a Second Language. Lancaster University.
- East, M. (2005) Dictionary use in foreign language writing exams. The University of Auckland.
- Elder, Catherine A. (1997) The background speaker as learner of Italian, Modern Greek and Chinese: implications for foreign language assessment. The University of Melbourne.
- Elham Fruzande (2008) TEFL program evaluation at Master's level in Iran. Shiraz University, Iran.
- Ellerton, A.W. (1997) Considerations in the validation of semi-direct oral testing. University of Reading.
- Eom, M. (2006) An investigation of operationalized constructs of second language listening tests. University of Iowa.
- Erdosy, Usman (2005) Responding to non-native and native writers of English: A history professor's indigenous criteria for grading and feedback in an undergraduate Sinology course. University of Toronto.
- Farnsworth, Timothy (2008) The construct of academic English language in tests of academic achievement and its effects on student performance: a confirmatory factor analytic study. University of California, Los Angeles.
- Feenstra, Hiske M. (2014) Assessing writing ability in primary education: on the evaluation of text quality and text complexity. University of Twente.
- Fernández, Miguel (2007) Methodological proposal for the creation of a new English test for university entrance in Spain. University of Granada. [Spanish]
- Fortus, Ruth (2008) The effect of language and modality on text comprehension. Tel-Aviv University.
- Fox, Janna (2001) It's all about meaning: L2 test validation in and through the landscape of an evolving construct. McGill University.
- Froetscher, Doris (2017) An investigation into the washback of a standardized national exam on the classroom testing of reading. Lancaster University.
- Frost, Kellie (2017) Test impact as dynamic process: individual experiences of the English test requirements for permanent skilled migration in Australia. The University of Melbourne.
- Fulcher, Glenn (1993) The construction and validation of rating scales for oral tests in English as a foreign language. Lancaster University.
- Gebriel, Atta (2006) Independent and integrated academic writing tasks: a study in generalizability and test method. The University of Iowa.
- Geranpayeh, Ardeshir (2000) Language proficiency testing: a comparative analysis of IELTS and TOEFL. University of Edinburgh.
- Glover, Philip (2006) Examination influence on how teachers teach: a study of teacher talk. Lancaster University.
- Goodwin, Sarah (2016) Locus of control in L2 English listening assessment. Georgia State University.
- Gosa, Codruta (2004) Investigating washback: A case study using student diaries. Lancaster University.
- Grabowski, Kirby (2009) Investigating the construct validity of a test designed to measure grammatical and pragmatic knowledge in the context of speaking. Teachers College, Columbia University.

- Green, Anthony B. (2003) Test impact and English for academic purposes: A comparative study in backwash between IELTS preparation and university preessional courses. University of Surrey.
- Green, Brent A. (2007) Factors associated with ESL test reform in a local context. University of California, Los Angeles.
- Gruba, Paul A. (1999) The role of digital video media in second language listening comprehension. University of Melbourne.
- Gu, Xiangdong (2005) Positive or negative? An empirical study of CET washback on college English teaching and learning in China. Shanghai Jiaotong University.
- Gui, Min (2011) Investigating the construct validity of the reading comprehension section of the College English Test in China: A structural equation modeling approach. The University of Texas at Austin.
- Gyllstad, Henrik (2007) Testing English collocations: Developing receptive tests for use with advanced Swedish learners. Lund University.
- Harding, Luke W. (2008) The use of speakers with L2 accents in academic English listening assessment: A validation study. The University of Melbourne.
- Hayes, Belinda M. (2003) IELTS preparation in New Zealand: An investigation into the nature of the courses and evidence of washback. Victoria University of Wellington.
- Hill, Kathryn (2009) The role of classroom-based assessment and the issue of continuity in foreign language learning. The University of Melbourne.
- Holmes, J.L. (1996) Studying in two languages: Study summaries in the classroom. Lancaster University.
- Horak, Tania (2012) An investigation into the effect of the Skills for Life Strategy on assessment and classroom practices in ESOL teaching in England. Lancaster University.
- Hoshino, Yuko (2009) Factors affecting performance of Japanese EFL learners in multiple-choice vocabulary tests in sentential context. University of Tsukuba.
- Hossein Heidari (2008) On the translation evaluation methods practiced in Iranian universities. Shiraz University.
- Huang, Heng-Tsung Danny (2010) Modeling the relationships among topical knowledge, anxiety, and integrated speaking test performance: A structural equation modeling approach. The University of Texas at Austin.
- Huang, Liyan (2009) Washback on teacher beliefs and behaviour: Investigating the process from a social psychology perspective. Lancaster University.
- Hyland, Theresa A. (2005) A study of the practices of EL1 and EL2 students in reporting information from sources in a timed writing proficiency assessment. OISE at University of Toronto.
- Imao, Yasuhiro (2010) Investigating the construct of lexico-grammatical knowledge in an academic ESL writing test. University of California, Los Angeles.
- In'nami, Yo (2007). The effects of task types on listening test performance: a quantitative and qualitative study. University of Tsukuba, Japan.
- Inoue, Chihiro (2011) Task parallelness: Investigating the difficulty of two spoken narrative tasks. Lancaster University.
- Isaacs, Talia (2010) Issues and arguments in the measurement of second language pronunciation. McGill University.
- Jang, Eunice (2005) A validity narrative: effects of reading skills diagnosis on teaching and learning in the context of NG TOEFL. University of Illinois at Urbana-Champaign.

- Janssen, Gerriet (2016) English proficiency and entrance to doctoral studies at one Colombian university: A standard setting study. University of Hawai'i at Mānoa.
- Ji, Yong-Il (2012). Comparing strategic processes in the iBT speaking test and in the academic classroom. University of Leicester.
- Johnson, Jeffrey S. (2002) Construct validation of the Secondary Level English Proficiency (SLEP) Test at a Japanese junior college. Temple University.
- Johnson, Robert (2015) Assessing the assessments: Using an argument-based validity framework to assess the validity and use of an English placement system in a foreign language context. Macquarie University.
- Jones, Neil (1992) An item bank for testing language proficiency - using the Rasch model to construct an objective measure. Edinburgh University.
