The SAFER Checklist – Robert Trowbridge, MD
Maine Medical Center

Modified Graber Diagnostic Checklist

Were you able to:

1. Take a complete history?
2. Complete an appropriately focused physical examination?
3. Use a systematic approach to common problems?
4. Take time to reflect?
5. Ensure adequate means of follow-up and reassessment are in place?

- Serious diagnoses
- Alternative diagnoses
- Feelings
- Extraneous data
- Reasons
