by Michael Smith (Author), Angela Alvarenga and Jonathon E. Goley (Illustrator)  
1 customer review

Celebrate the beauty and wonder of the water cycle through lyrical rhyming text and vibrant realistic paintings. The story of water is described eloquently in this delightful and informational book that engages children and adults alike to report incorrect product information.

Eruptions and Explosions... Discover the dramatic history of five explosions that continued to rattle the world long after the smoke had cleared and embers cooled! Learn more
Smith often gets his inspiration to write from traveling and exploring remote regions. Selection, Thomas the T. rex, an Outstanding Science Trade Books for Students K-12, and What in the World, a Moonbeam Children Book Award Gold Medal Winner. Michael Smith is the author of many non-fiction and fiction books for all ages. Among his many award-winning titles are Relativity/Relatividad, a Junior Library Guild Goodreads under the science concepts in this bilingual book. The book will certainly be useful for anyone interested in learning or teaching about the water cycle. —Midwest Book Review

It Starts with a Raindrop

January 26, 2017

It Starts with a Raindrop is an educational story that teaches young children about the water cycle in a simple and captivating manner.

One of my favorite aspects of the book is that it is written in lovely verse. Studies show that rhyme can improve reading skills and help children detect the phonetic constituents of words. This, together with the lessons on the water cycle and the English/Spanish text make It Starts with a Raindrop a delightful and beautiful multicultural read.

The amazing illustrations are done in soft colors and are wonderfully detailed which add to the story's charm.

I highly recommend picking up a copy of It Starts with a Raindrop. Perfect for classroom and home libraries.
