3. Discussion Topics:

1. Mission Statement

The Committee examined the Mission Statement and concluded that it was sufficient for the needs of the Committee. No changes were needed.

2. Small Firm Needs

Discussion was had regarding the services this Committee could bring to the sole practitioner and small firms. Derrick noted that other committees had their programing planned for the forthcoming year and many needs would be addressed.

However, he did note that there has typically not been a lot of interest in Technology presentations without an accompanying CLE. That said, Webinar, CLEs that are hands on would be options. He suggested areas of focus could be Set-up of Linked in accounts, utilization of Face Book and Document Assembly. Lunch time seminars appear to work best

He also suggested that we ask Seth Wilson to assist in finding people and resources who could help.

Also, the General Practice Section has typically a representative from the Technology Committee and the Law Practice Management Commissions on its board. Ann Marie Waldron is the Chair of that Section.
