

MARCH ★ AGAINST HUNGER

We encourage individuals and firms to donate money, as every \$1 donated can provide up to nine-times the amount in groceries due to the stewardship of resources, food reclamation from area groceries and purchasing power of Feeding Indiana's Hungry, as a larger non-profit. However, if firms or individuals want to collect non-perishable grocery items, they also can count toward the food drive.

To count non-perishable items, here's what you need to know:

- Non-perishable food items collected will convert as follows: 1 lb. = \$1.68
- You are responsible for delivering the non-perishable grocery items to your local food bank. In order to count toward the food drive, be sure to get a receipt from the food bank and send to: Shanae Gay at sgay@inbar.org.
- If you and/or your firm would like to host a food drive in partnership with your local food bank, [click here](#).

For questions, feel free to contact Shanae Gay at 800.266.2581 or sgay@inbar.org.
