

IMA member benefits include

- **Member Discounts.** Members receive cost saving discounts for all IMA publications/ videos/CD ROMS, conference/seminar registration fees, exhibit space and events.
- **Annual Conference.** The IMA Annual World Magnesium Conference is a distinguished international forum for presenting the latest industry developments, interacting with magnesium industry leaders, and discussing pressing issues facing the industry.
- **IMA News.** IMA distributes, via e-mail, a timely newsletter containing Magnesium-industry-related news items, industry articles and press releases from around the world.
- **IMA Members' On-Line Buyers Guide.** The On-Line Buyers Guide provides an excellent opportunity for member companies to inform potential global customers of their company's capabilities, products, services, locations and valuable contact information.
- **Awards Program.** Established in 1962, IMA's Awards of Excellence is an annual program open to companies demonstrating outstanding examples of design, process and/or application of magnesium. The Environmental Responsibility Award, established in 2010, is based on the achieved and documented reduction of carbon dioxide equivalents, and is intended to include all aspects of the magnesium industry from primary production through to end-user industries.
- **Research.** The International Magnesium Association conducts various cooperative research programs and studies on behalf of the international magnesium industry. Results of which are often shared favorably with members.
- **Publications, Videos and more.** IMA offers member discounts on its extensive offering of Proceedings, brochures, books, educational materials, videotapes and CDs.
- **Industry Seminars.** IMA promotes the use of magnesium to other industries through one- and two-day educational seminars in the United States and Europe.
- **Statistics.** The IMA collects and publishes statistical information on worldwide magnesium production and shipments.
- **Application Seminars.** IMA covers a wide range of Mg Applications that cross over from the automotive industry to other areas such as Medical, Sporting Goods, Tools, 3C, and Automotive Applications.
