JOIN IMA TODAY!
Founded in 1943, the International Magnesium Association (IMA) is the global voice of the magnesium industry. The mission of IMA is to promote the use of the metal magnesium in material selection and product design, as well as to encourage innovative applications of this versatile metal.

IMA Members Are
• primary & alloy producers of the metal
• recyclers
• foundries
• fabricators
• end- users
• suppliers to the industry including research institutes, consultants and merchants

IMA serves the industry and its membership through:
• IMA’s Annual World Magnesium Conference
• International webinars, conferences and exhibitions
• statistical programs, research, and publications

IMA maximizes its combined membership resources to develop value-added services and programs that address today’s industry issues and needs at a fraction of the cost to an individual company.

IMA provides value to its membership through an array of programs and services which include, but are not limited to, the following:

Industry Representation & Advocacy
IMA is the recognized representative of global magnesium interests. In that role IMA liaisons with numerous international governments and their agencies, international associations, and societies.

Awards Programs
• IMA’s Awards of Excellence for outstanding examples of design, process, and/or applications of magnesium.
• IMA Environmental Responsibility Award recognizing companies that exemplify the industry’s commitment to environmental responsibility.

Support and membership in IMA is an investment not only in your company but also in the international magnesium industry.

IMA News
A monthly e-publication with timely market updates, global news, industry articles, association news and press releases pertinent to the magnesium industry.

Industry Webinars & Conferences
• Annual World Magnesium Conference
• Industry Webinars

Publications, Videos, and more
IMA offers a variety of educational materials, publications, brochures, books and videos for sale.

Life Cycle Assessment, EU Mg Recycling Study
IMA often conducts cooperative research programs on behalf of the international magnesium industry.

IMA Website
IMA’s website, www.intlmag.org, is a repository for a host of association and industry information.

Buyers Guide
IMA’s Buyers’ Guide is a searchable database for magnesium products and services of IMA Member Companies.

Member Discounts
Members receive cost saving discounts for all IMA conference/seminar registration fees, exhibit space, industry-related events and publications/videos/CDs.

IMA is the trade association for the global magnesium industry of today.
