TOTAL	855	828	848	842	799	816	809	666

The "final" jury verdict stats are always 10% to 20% greater than the prelim. stats.

* 2016 stats are PRELIMINARY (NOT FOR PUBLICATION); "final" 2016 stats will be run in mid-March 2017.

*The numbers reflect jury "verdicts" entered. An additional 15 to 20% of cases that begin a jury trial settle or end in a guilty plea before a verdict is entered. (Table and chart prepared by State Court Administration: 1-19-17.)

Note: Prior to 2009, "jury trial" stats included any disposed case in which a jury had been selected (even if the case settled or a defendant pleaded guilty before a witness was sworn in). In 2009, "jury trial" stats were changed to capture only cases with a jury verdict entered. An estimated 20% of cases that begin a jury trial end in a guilty plea, settlement, hung jury, or mistrial before a verdict is entered.
