

# Portable Planetarium Domes

Posted May 2011

Most portable planetarium manufacturers sell their projectors with a dome. Please consult the "Portable Planetarium Projections Systems" document on the IPS Portable Planetarium Committee web page. Some manufacturers sell their domes separately or are strictly dome manufacturers. You can purchase the following domes without having to purchase the projector at the same time.

Domes specifically for analog projector systems	Website	Diameter	Height	Entrance design	Seating capacity	Weight	Approximate Cost in USD plus shipping
<b>Classic STARLAB standard dome</b>	<a href="http://www.starlab.com/domes.html">http://www.starlab.com/domes.html</a>	16 ft. (4.9m)	3.2 m (10.5 ft)	Tunnel	27	45lbs (20.4kg)	\$7,250
