Faculty

Barbara Connolly is a Professor Emeritus at the University of Tennessee Health Sciences Center where she served as Chair of the Physical Therapy Department for 24 years and Interim Dean of the College of Allied Health Sciences for 2 years. She is the past President of the Foundation for Physical Therapy, a foundation dedicated to funding physical therapy research. She served as President of the International Organization of Physical Therapists in Pediatrics, a subgroup of the World Confederation of Physical Therapy. She also has served on the APTA Board of Directors, on the APTA Pediatric Specialty Council and the American Board of Physical Therapy Specialists. She was past President of the Section on Pediatrics of the APTA. She received the Bud DeHaven Leadership Award, the Research Award and the Jeanne Fischer Distinguished Mentorship Award from the Section on Pediatrics. She is a recipient of the Golden Pen Award from the American Physical Therapy Association for her publications. In 2002, she received one of the highest honors from the APTA when she was named a Catherine Worthingham Fellow. In 2014, she received the Marilyn Moffat Leadership Award and in 2016, she received a Lucy Blair Service Award. She is certified in NDT and in SI.

Disclosure: Financial: Barbara Connolly receives a speaker fee from Education Resources, Inc. Non-Financial: She has no non-financial relationships to disclose.

About this Course

Many school-age children struggle with motor skills that their peers have long mastered. These “clumsy” children may exhibit difficulties with writing, activities of daily living, as well as issues with play and sports. This lab course will provide practical and effective intervention strategies for these children. Underlying etiologies of clumsiness (developmental coordination disorders) as well as newer concepts of motor control and motor learning will be discussed in relationship to other neurophysiologic concepts. This course will discuss evaluation tools to isolate the roots of the problem and treatment techniques and suggestions for the classroom utilizing an integrated approach. Functional outcomes and clinical effectiveness will be emphasized.

Objectives

- Define and explain what is meant by clumsiness, developmental incoordination disorder and developmental dyspraxia.
- Summarize the proposed underlying causes of praxis problems.
- Identify the characteristics of the child with praxis problems.
- Identify the components of an adequate evaluation for the child including standardized and non-standardized methods.
- Develop activities that would be appropriate for the child with praxis problems for home, school and social environments.

Audience

This course is designed for Occupational Therapists, Occupational Therapy Assistants, Physical Therapists, Physical Therapist Assistants, Teachers and Early Interventionists working with children of all ages.
Schedule – Day 1

7:30-8:00 Registration/Continental Breakfast
8:00-9:30 Terminology; Theories of Causation
9:30-10:00 Praxis Model
10:00-10:15 Break
10:15-12:30 Neuroanatomical/Neurophysiological Considerations, Differential Diagnosis Characteristics of Dyspraxia
12:30-1:30 Lunch (on your own)
1:30-2:00 Video Cases: 2 children with dyspraxia
2:00-3:00 Praxis Evaluation Tools and Techniques
3:00-3:15 Break
3:15-5:00 Evaluation Techniques: Standardized Tests
5:00-6:00 LAB

This course was extremely empowering. I now have a better toolbox to offer my patients and a solid knowledge base on how to show them how to use these tools and their own abilities to make them as functional as possible. Thank you." - Nicole S

"Thank you for your concise and practical approach to theoretical knowledge we possess. Good enlightenment into bridging and putting the pieces together for real world application." - Kris M

Schedule – Day 2

7:30-8:00 Continental Breakfast
8:00-10:30 Evaluation Techniques (cont.)
10:30-10:45 Break
10:45-11:30 Evaluation Techniques (cont.)
- Case Study: Decision-Making Process Based on Examination Outcomes
11:30-12:15 Treatment Techniques
12:15-1:15 Lunch (on your own)
1:15-2:45 Treatment Techniques
- Behavioral Considerations
- Arousal Activities
- Sensory Input
2:45-3:00 Break
3:00-4:30 Treatment Techniques (cont.)
- Cognitive
- Neuromotor task training
- Sensory and functional skill approaches
- Practical strategies for the school, clinic and home

ERI: Life-changing learning

You love what you do. Our courses remind you why. As a therapist, you change lives every day – and have your life changed in return. ERI is life-changing learning, for therapists by therapists.

The ERI Advantage:
- Techniques you’ll use the next day
- Peers who share your passion
- Renowned faculty
- Evidence-based courses that improve outcomes
- 30 years of life-changing learning

Specialty Tracks throughout the lifespan – Neonatal, Pediatric, Adult, Geriatric

Each ERI specialty track is designed to make the most of your continuing education time, budget, and goals. Start your search with us, and plan every course you’ll take in 2020.

Visit educationresourcesinc.com for all of your 2020 courses.

ERI Rewards
Your ERI experience is more rewarding than ever.
- First Course Discount
- Bring a Friend Savings
- Group Discounts
- $100 off your 4th Multi-day Course
- And more
