**MYOFASCIAL RELEASE**

**Instructors:**
Cathy McCredie, P.T. and Steven Clark, P.T.

**Date:** October 2-4, 1992

**Location:** Chicago, IL

Myofascial Release encompasses the knowledge of the neurophysiology of fascia, palpatory skills, the understanding of circulations and the ability to initiate systemic tissue changes through fascial mobilization. These techniques are indicated in cases of acute pain, muscle spasm, inflammation, chronic joint and tissue restriction. Myofascial release technique is gentle and controlled, yet subtle. It may be implemented during all phases of the rehabilitation process.
