Wheaton, Illinois 60187

Course Description

Driving and community mobility is a topic that many professionals, in a variety of settings, are asked to address. For many individuals, driving is their primary method of community mobility. A special education teacher or school therapy team may be asked to address how a teen's special needs will impact her ability to drive. A physician, case manager, social worker, therapist or nurse may be asked by a patient recovering from a medical condition for approval to drive. An older person or an individual with a progressive disease may need assistance planning retirement from driving.

This course will address the importance of an interdisciplinary approach to community mobility across the lifespan. In addition to specific approaches for preparing an individual with disability for driving, methods of safely accessing alternative transportation will be addressed.

The course will be divided in two parts.

DAY ONE: The first day is intended for all professionals to address community mobility both within their setting and through referral.

DAY TWO AND DAY THREE: The second and third days are intended for Occupational Therapists with a strong interest in Driver Rehabilitation. A large component of these days is the behind the wheel experience with a wide variety of adaptive driving equipment. In order to maximize driving time, participation is limited to a maximum of 18 individuals. NOTE: Days two and three are for OT Practitioners only. Other professionals with experience may attend with prior approval. Contact ahegberg@Marianjoy.org.

Intended Audience

One Day Course: Case managers, OT, OTA, PT, PTA, RN, School Counselors

Three Day Course: OT, OTA

Course Objectives

DAY 1 OBJECTIVES:

Community Mobility (open to all professionals)

1. Describe the importance of community mobility as an Instrumental ADL across the lifespan.
2. Identify pre-driving tasks to increase a client's potential for future driving.
3. Identify key components of driving retirement.
4. Describe legal and ethical considerations of return to and retirement from driving.

DAY 2 AND 3 OBJECTIVES:

Gearing up to Become a Driver Rehabilitation Specialist

(Open to OTs and OTAs only)

1. Identify the components of a clinical driver evaluation and relevance to the in-vehicle evaluation
2. Discuss the difference between the primary, secondary and tertiary controls of a vehicle
3. Compare and contrast the various adapted driving equipment as it relates to specific impairments
4. Formulate a thorough written report at the conclusion of a driving evaluation
5. Describe the importance and components of a vehicle fitting and conformance inspection
6. Identify the differences between being a CDI and a CDRS and the requirements to obtain each

Marianjoy's Driver Rehabilitation Program

One of the most highly regarded programs in Illinois, Marianjoy Driver Rehabilitation program provides driver evaluation and education for persons with disabilities. Marianjoy serves experienced drivers who have acquired a disability, people with disabilities who are interested in getting a driver's license for the first time and senior citizens who are determining whether they can still drive safely. Program staff includes four Occupational Therapists who are among Illinois' few nationally Certified Driver Rehabilitation Specialists (CDRS) and Illinois state Certified Driving Instructors (CDI).

Therapy Association, Inc.

Faculty:

Anne Hegberg, MS, OTR/L, CDRS is an Occupational Therapist, a Certified Driver Rehabilitation Specialist (CDRS) and IL certified driving instructor (CDI). She has specialized in driver rehabilitation at Marianjoy Rehabilitation Hospital for over 20 years. The program addresses the needs of drivers with a wide range of disabilities including teens, clients who are wheelchair dependent, those with low vision as well as the elderly. Anne is active professionally in the organizations of AOTA, NMEDA (National Mobility Equipment Dealers Association) and ADED (Association for Driver Rehabilitation Specialists). In 2007 Anne authored *An Older Driver*, a rehabilitation primer for Occupational Therapy Professionals, AOTA. Anne has presented locally, nationally and internationally on all aspects of Driver Rehabilitation.

Kimberly Edmonds-Woulfe, OTR/L, CDRS is an Occupational Therapist OTR/L, Certified Driver Rehabilitation Specialist (CDRS), and an Illinois certified Driving Instructor (CDI) with Marianjoy Rehabilitation Hospital where she has been employed for 5 years. She is responsible for evaluating and treating the community mobility needs of persons with various disabilities. Kimberly graduated from the University of Illinois at Chicago in 1991 with a degree in Occupational Therapy. In 1996, she obtained her certification as a Driver's Rehabilitation Specialist, and Co-owned a driving practice for 3 years. She has presented at various community groups, and has taught continuing education classes on the topic of Driver's Rehabilitation.

Danielle Czajkowski, OTR/L, CDRS is an Occupational Therapist and Certified Driving Instructor in the Driver Rehabilitation Department at Marianjoy Rehabilitation Hospital. She is responsible for the evaluation and treatment of the community mobility needs of people with disabilities. Danielle has presented multiple times to various groups in the community, educating them on a variety of topics related to Driver Rehabilitation. She has been an Occupational Therapist for over 5 years, and has been a member of the Driver Rehabilitation Team for the past year. Danielle holds a degree in Psychology from Carthage College and a graduate degree in Occupational Therapy from Washington State University in St. Louis, School of Medicine in which her master's degree work focused on Driving, Dementia, and Driving Retirement.

Pam Bartle OTR/L, CDRS has been an occupational therapist since 1982. She has specialized in the area of driver rehabilitation for the past 15 years. Pam is a Certified Driver Rehabilitation Specialist and a Certified Driving Instructor. She has additional training in the area of low vision driving with bioptics.
