

The Institute of Risk Management SOUTH AFRICA

**Risk Based Combined Assurance** 

# RISK BASED COMBINED ASSURANCE

Combined Assurance has been a buzz term in the assurance fraternity since King III. While some organisations have come to terms with it and established clearly defined combined assurances processes there are still a significant number that have either not begun or are navigating their way towards what may be considered best practice in their industry.

The essence of combined assurance is effective co-ordination and collaboration between management and internal as well as external assurance providers to ensure that risks are well managed so that organisations can achieve their objectives.

Course Objective:

Assist Risk Practitioners and Assurance Providers with tools to help them:

- Develop a risk based combined assurance model
- Enhance an existing model
- Understand the risk management pre-requisites
- Keep combined assurance alive in an organisation

Chief Risk Officers, Risk Managers, Risk Champions, Board Audit Committee and Board Risk Committee Members, Executive Risk Management. All participants in the organisational assurance processes including risk practitioners.

This training seeks to look at the role and contribution that effective risk management plays in ensuring the effectiveness of a combined assurance model and provide guidance on how to develop a model that is truly risk-based.

Online Virtual Training:

Members: R 2 750.00 ex vat Non-Members: R 3 350.00 ex vat

## ABOUT THE FACILITATOR

Vanessa Thurlwell (BA Hons) has 16 years of experience in Risk Management, primarily Enterprise Risk Management (ERM) and Business Continuity Management. She graduated in 2000 with a BA in Geography and Psychology and Honours in Environmental Management from UKZN. Vanessa's specialist skills include advisory, implementation at all phases of the risk management cycle (from analysing risk management maturity to conducting gap analyses against risk frameworks and regulations - including King IV and ISO 31000), developing risk appetite and risk management frameworks, facilitating risk management activities e.g. risk assessments, reporting, control assessments and conducting training at all levels of an organisation. Vanessa is involved with other IRMSA training courses, the development of Board Exam 1 questions and is involved in the Risk Practitioner Qualification.
