APPORTIONABLE VEHICLE

Article II of the Plan

Definition of an Apportionable Vehicles

Any Power Unit that is used or intended for use in two or more member jurisdictions

and that is used for the transportation of persons for hire or designed, used or maintained primarily for the transportation of property, and:

APPORTIONABLE VEHICLE

(i) has two axles and a gross vehicle weight or registered gross vehicle weight in excess of 26,000 lbs (11,793.401)

APPORTIONABLE VEHICLE

or
(ii) has three or more axles, regardless of weight,

APPORTIONABLE VEHICLE

or
(iii) is used in combination, when the gross vehicle weight of such combination exceeds 26,000 pounds (11,793.401 kilograms)

APPORTIONABLE VEHICLE

A recreational vehicle, a vehicle displaying restricted Plates or a government-owned vehicle, is not an apportionable vehicle;

EXEMPT VEHICLES:

- Recreational vehicle
- Vehicles displaying restricted plates
- City pick-up and delivery vehicles
- Government-owned vehicles
- Vehicles having a GVW of 26,000 lbs. (11,793.401 kilograms or less nevertheless may be registered under the IRP at the option of the Registrant)

APPORTIONABLE VEHICLE

RESTRICTED PLATE: A plate that has a time, geographic area, distance or commodity restrictions.

Although a jurisdiction declares a plate restricted, it may not be honored by all jurisdictions.

APPORTIONABLE VEHICLE

EXAMPLES OF RESTRICTED PLATES:

- Farm Plates
- Transporter Plates
- Dealer Plates
- Repair Plates
- Forestry Plates
- Antique Plates
- Emergency-Disaster Plates

APPORTIONABLE VEHICLE

POLL QUESTION #1

Who decides the content and look of the forms?

- A. The motor carrier (registrant)
- B. The Base Jurisdiction
- C. IRP Inc.

APPORTIONED REGISTRATION FORMS

- How do I register an apportioned vehicle?
- All jurisdictions have an IRP form, as required by the Plan, under Section 315.
- Each jurisdiction decides the total content and look of their form.

APPORTIONED REGISTRATION FORMS

The Plan requires certain data elements to be transmitted to member jurisdictions under Section 1215, and are common to all IRP applications.

This includes the vehicle, the account number, the jurisdictions traveled in, and weight of the vehicles. These factors are necessary and will be used to calculate the fees for that vehicle for its apportioned registration.

APPORTIONED REGISTRATION FORMS

Section 600 Credentials For Apportioned Registration

- (a) Upon the registration of an Apportionable Vehicle under the Plan, the Base Jurisdiction shall issue a Cab Card and a Plate for the Vehicle, and these shall be the sole registration Credentials issued for the Vehicle. The Plate shall be identified by having the word "apportioned," "APP," or "PRP" and the name of the Base Jurisdiction. The numbering system and color of the Plate shall be determined by the Base Jurisdiction.

APPORTIONED REGISTRATION CREDENTIALS

- b) A Base Jurisdiction shall require that the Cab Card be carried in the Vehicle for which it is issued. A Base Jurisdiction may issue a Cab Card by electronic means and may permit Carriers to use photocopies of Cab Cards. Member Jurisdictions must accept a Cab Card that has been issued in accordance with the law of the Base Jurisdiction.

POLL QUESTION #3

What is the Apportioned Registration credential called?

- A. Certificate
- B. Passport
- C. Cab Card

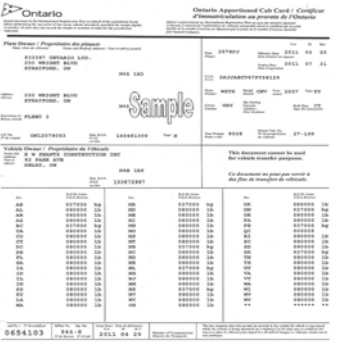

APPORTIONED REGISTRATION CREDENTIALS

Section 610 of the Plan states the various pieces of data that have to be on the cab card.

- Make
- Model
- VIN of the vehicle
- The registered weights for those jurisdictions

APPORTIONED REGISTRATION CREDENTIALS (EXAMPLES)

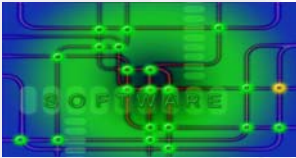

The image shows a sample Ontario Apporportioned Cab Card. It includes the Ontario logo and the title 'Ontario Apporportioned Cab Card - Certificat d'Apporportionnement des Jurisdictions de l'Ontario'. The card is divided into several sections: 'Plan Owner / Propriétaire des plates', 'Apporportionment / Apporportionnement', 'Apporportionment / Apporportionnement', and 'Apporportionment / Apporportionnement'. A large 'Sample' watermark is overlaid on the card. At the bottom, there is a table with columns for 'Jurisdiction', 'VIN', 'Make', 'Model', 'Weight', and 'Status'. The table contains multiple rows of data for various jurisdictions and vehicles. The card number '0654103' and the date '2011 04 29' are visible at the bottom left.

ON-LINE PROCESSING

- Functionality and user access varies from Jurisdiction to Jurisdiction
- Covers most IRP transactions
 - New, Renewal, Add/delete vehicles, add jurisdictions

ON-LINE PROCESSING

- Credentials are faxed, emailed, mailed or all three
- Some jurisdictions allow the carrier to immediately print the permanent cab cards themselves.

LAW ENFORCEMENT USE OF CREDENTIALS

- At roadside, Law Enforcement will use the cab card to determine whether the vehicle is a properly registered vehicle under both the laws of that jurisdiction and International Registration Plan
- Section 610 contains commentary that gives some direction on the use of the credential by roadside enforcement, and gives the jurisdictions some direction as to what else the document may or may not contain

LAW ENFORCEMENT USE OF CREDENTIALS

What happens if the officer finds the vehicles not properly registered under the Plan?

- If law enforcement determines that a carrier is improperly registered or not registered at all, the officer may write a citation for an improperly registered or unregistered vehicle, depending on the laws of your jurisdiction. In addition, if found in violation of weight laws, the carrier may be issued a citation for being overweight, which in most cases carries a heavy fine.

LAW ENFORCEMENT USE OF CREDENTIALS

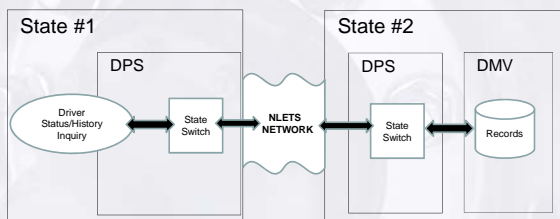

- Provide consistent online access for law enforcement to confirm IRP credentials..
- Enhance Jurisdictional and Law Enforcement communications

LAW ENFORCEMENT USE OF CREDENTIALS

How does Law Enforcement Access Information?

Most jurisdictions have electronic access to their information. Some have telephone systems for law enforcement to verify credentials. In each case, the jurisdictions are required as part of Section 600 (c) to have a means by which law enforcement can verify the validity of that cab card.
