JURISDICTION OF CALIFORNIA
Effective January 1, 2013

**VLF and Rounding Rules are Applicable to both Unladen Weight of 10,000 pounds and less
and Declared Gross/Combined Gross Weight of 10,001 pounds or more**
Vehicle License Fee

Locate year of purchase. In the appropriate column to the right, locate the equivalent factor. Multiply the purchase year equivalent factor by the purchase price. To determine the purchase price, round the purchase price to the nearest odd hundred dollars. If the digit in the hundredth column is even, round up; if odd, round down. Example: \$27,400 rounds to \$27,500. \$27,365 rounds to \$27,300. Determine the vehicle license fee (VLF) for a 12-month period. For periods less than 12 months, multiply the VLF by the number of months and divide by 12.

Depreciation Schedule

Purchase Year and Corresponding VLF Percentage	Equivalent Factor
Current Year (100%)	0.0065
1st year prior (90%)	0.00585
2nd year (80%)	0.0052
3rd year (70%)	0.00455
4th year (60%)	0.0039
5th year (50%)	0.00325
6th year (40%)	0.0026
7th year (30%)	0.00195
8th year (25%)	0.001625
9th year (20%)	0.0013
10th year (15%)	0.000975

Example: Fees due for a 12 month period:
Purchase Price: \$27,500, Purchase Date: current Year, \$27,500 x .0065 = \$179
Fees due for a 7 month period:
Purchase Price: \$27,500, Purchase Date: current Year, \$27,500 x .0065 = \$179 x 7 = 1253/12 = \$104

Rounding Fees for California Registration Fees and Apportioned Registration Fees

Separately calculate the weight fee add the vehicle license fee (round the VLF as specified below). Add together these two fees and the registration fees. Add the CVRA and CTIP fee, when applicable. Apply the California mileage percentage to the total, and then use the rounding rules to determine the California apportioned fees due.

- Any fee in the amount of \$0.01 to \$0.99 round up to \$1.00.
- Any fee more than \$1.00 with cents totaling from \$0.01 to \$0.49 round down to the nearest whole dollar.
- Any fee more than \$1.00 with cents totaling from \$0.50 to \$0.99 round up to the nearest whole dollar.

NOTE: New Rules for collection of fees. All fees must be submitted before a Temporary Registration Authorization is issued.

- 100% California Fee (calculator is available in the DMV Website dmv.ca.gov) OR
- *CA Apportioned Fees + Other Jurisdiction OR
- \$250 per vehicle per month for the number of months between the application date and expiration date OR
- \$300 per vehicle per month for the number of months between the application date and expiration date (purchase price of \$200,000 or more).

***IMPORTANT:** A copy of the billing from the registrant or Registration Service Agent's system software that was utilized to calculate fees for CA and other jurisdiction must be submitted with the application before a temporary registration authorization will be issued.
