Date: December 15, 2016

Subject: Fee correction on Light Vehicles

During a recent review of Montana statutes, it was found that the fees that were being charged for light vehicles were incorrect. Fees for vehicles that are registering for less than 24,000 pounds can only be charged a flat rate that is equal to a full year fee; we previously were allowing these vehicles to be charged at either an annual or semiannual fee.

Effective January 1st, 2017.

The corrected fee chart is attached and the correction is under Part 3 - Gross Vehicle Weight Fees. The impacted fees have been highlighted for you which includes, weights that are 24,000 pounds and 6 months or less.

If there are any questions from other jurisdictions about these IRP Fee changes please contact: Dan Kiely, License & Permit Bureau Chief - e-mail: dkiely@mt.gov
