Lake Ridge, VA 22192

IRP Inc. and all IRP Member Jurisdictions:

This letter serves as notification of recent legislative changes to certain registration fees. In accordance with ORS 803.420, the State of Oregon has increased the registration fees for commercial motor vehicles registered between 8,000 and 26,000 pounds, tow vehicles, commercial buses, and vehicles used to transport manufactured structures.

Passed legislation also amended ORS 803.435 eliminating the registration weight calculation for commercial buses.

All changes are effective January 1, 2018. Updated fee schedules are attached.

Vehicle Type	Determining Registration Weight	Use Fee Chart
Buses	Heaviest operating weight	Heavy Motor Vehicles
Tow or Recovery (Exclusive Use)	Power unit fully equipped for service and all vehicles in combination, plus the total weight of the load carried on that vehicle or combination of vehicles. See ** below.	Tow/Recovery & Manufactured Structure Totor
Manufactured Structures (Exclusive Use)		
Tow or Recovery and Manufactured Structure Fees are applied only to vehicles <u>used exclusively</u> for those purposes.		
**Oregon Registration weights do not include:		
1) Trailers with a loaded weight of 8,000 lbs or less,		
2) Special use trailers, travel trailers, manufactured structures and fixed load vehicles or,		
3) A towed motor vehicle.		
NOTE: Operations above 26,000 require Oregon Weight-Mile Tax Credential.		
For operations in excess of 80,000 pounds, or legal size, or axle weights, you must also obtain a variance permit. Contact the MCTD Over-Dimension Permit Unit at 503-373-0000.		
Note: New fee structure on variance permits and road use assessment fees effective January 1, 2018.		

The Heavy Vehicle fee schedule must be used for: trucks and buses with a registration weight of more than 10,000 pounds, commercial buses, armored cars, hearses, ambulances, and all self-propelled mobile cranes with a registration weight of more than 8,000 pounds.

The Tow and Mobile Home Toters fee schedule must be used for motor vehicles registered as tow/recovery or manufactured structure toters. These vehicles are used only to tow or haul wrecked or disabled vehicles or to transport manufactured structures. In addition to an annual registration fee, the owner of a vehicle used for tow and recovery purposes must pay an annual business certificate fee to DMV for each vehicle.

IMPORTANT NOTICE FOR VEHICLES WITH COMBINED WEIGHT OVER 26,000 POUNDS

Vehicles subject to weight-mile tax through Motor Carrier Transportation Division (MCTD) must be registered with MCTD. This applies primarily to vehicles with a registration weight of 26,001 or more pounds.

Vehicles with registration weights of less than 26,001 pounds also may be subject to weight-mile tax if the vehicle's combined weight is 26,001 pounds or more. This would include, for example, a vehicle used exclusively to tow manufactured structures, since the manufactured structure is not included in the registration weight, but is part of the combined weight. If the combined weight of your vehicle is 26,001 pounds or more, you must register it with MCTD.

To confirm whether or not your vehicle is subject to weight-mile tax, contact MCTD registration staff at (503) 378-6699.

Registration Weight

Registration weight is the "fully equipped for service" weight, i.e. the empty weight of a vehicle or all vehicles in a combination (for example, a truck and any trailers it may pull), plus the total weight of the load carried on that vehicle or combination of vehicles, minus the weight of a camper or the trailing vehicles listed below:

- 1) Trailers with a loaded weight of 8,000 pounds or less.
- 2) Special use trailers, travel trailers, manufactured structures, and fixed load vehicles.
- 3) A towed motor vehicle.

Maximum Registration Weight

The maximum REGISTRATION WEIGHT per single vehicle or combination of vehicles is 105,500 pounds. Unlike registration weight, combined weight includes the weight of any camper, trailing vehicles or their loads.

For operations in excess of 80,000 pounds, or legal size, or axle weights, you must also obtain a variance permit. Variance permits may be obtained from the MCTD Over-Dimension Permit Unit by calling (503) 373-0000.

Note: New fee structure on variance permits and road use assessment fees effective January 1, 2018.

Heavy Trailers

Trailers with a loaded weight in excess of 8,000 pounds are registered at DMV. The loaded weight of these trailers is included in the registration weight of the power unit that pulls the trailer.

Your vehicle may be subject to other requirements administered by MCTD. For more information, contact MCTD registration staff at (503) 378-6699.
