RE: Update to Washington IRP Fees

Washington has discovered a discrepancy in our fee chart. We are updating them to include two additional fees for the use of LIQUEFIED NATURAL GAS (LNG), COMPRESSED NATURAL GAS (CNG), and PROPANE powered vehicles. These fees apply to all vehicles using these three fuel types regardless of their vehicle type.

The additional fee tables include a LNG/CNG/PROPANE Weight fee, which is assessed annually based on weight and is available to be apportioned and prorated by month. The LNG/CNG/PROPANE License Fee is assessed annually and monthly which is apportioned.

All changes are effective April 1, 2018. Updated fee schedules and calculation examples are attached.

Please feel free to contact me with any questions.
