

Water/Wastewater Tablet Success For Less Than \$1000

Presenter(s):

Chris Sosnowski, B&W Control Systems Integration

Abstract: Tablets have taken our jobs (and for some of us, our lives) and changed them forever. With instant on, near-instant access, and security technologies coming up to speed quickly, the potential for these devices to save us all time and money is growing each year. This presentation will cover how to spend less than \$1,000 and get your utility a tablet with some great, helpful apps to make your life easier!
