

# **How To Select An Economical And Secure Remote Terminal Unit (Rtu) Delivery System For Wwtps And Pump Stations**

**Presenter(s):**

Ralph Royall, RACO MFG. & Engineering, Co.

**Abstract:** As we see our budgets shrink and more requirements placed on operations with fewer employees. A “Do More With Less” environment can become stressful and time consuming. This “How To” presentation, explains the various delivery systems options now available to get the information from the field and into your hands. More than just having a monitoring system, you need to have the RIGHT Delivery System for your application.
