

Why is a Water Operator Important?

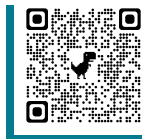

Who are we?

We're so glad you asked! We're a diverse group of professionals focused on improving, testing, and providing clean water to everyone. Do you like chemistry, physics, engineering, or really care about clean water for all? Do you want a career that gets you outside and moving? Then learn more about the water workforce!

What do we do?

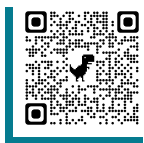

Scan the QR code to watch videos from the EPA to learn more about the scope of positions, possibilities, and more about the water effort.

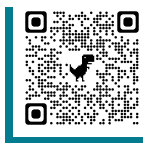

One AWWA Operator Scholarship:

The One AWWA Operator Scholarship offers water and wastewater operators funding for continuing education, certification, training, and conference attendance through AWWA's Water Equation's partnership with local AWWA Sections. Scholarships are available throughout the year and payable to the education institute.
