The International Society for Extracellular Vesicles is the premier international conference of extracellular vesicle research, covering the latest in exosomes, microvesicles and more. With an anticipated 1,000 attendees, ISEV2019 will feature presentations from the top researchers in the field, as well as providing opportunities for talks from students and early career researchers.

Plenary Speakers

Takahiro Ochiya, PhD, Institute of Medical Science, National Cancer Center Research Institute

Kazunori Kataoka, PhD, Policy Alternative Research Institute, University of Tokyo

Yong Song Gho, PhD, Department of Life Sciences, POSTECH

Mikiko Siomi, PhD, Graduate school of Science, University of Tokyo

Sai-Kiang Lim, PhD, Institute of Medical Biology, Singapore
