International Society for Pediatric and Adolescent Diabetes
What does ISPAD do?

Annual Conference, held in different international locations.

ISPAD Science School for Physicians offers academic training in the field of diabetes for young physicians.

ISPAD Science School for Healthcare Professionals is for nurses, dietitians, psychologists and other healthcare professionals.

Postgraduate courses (particularly in developing countries), scientific symposia, clinical workshops and training programs for physicians and healthcare professionals.

Facilitation of collaborative studies related to technology or care.

ISPAD Rare Diabetes Collection provides clinical details on rare types of diabetes, as well as serving as a repository of stored DNA for research.

Advocating worldwide for quality healthcare delivery, access to quality diabetes supplies, appropriate education for their use and promoting the safety of children with diabetes at school.

Raising public awareness about diabetes mellitus.

What is ISPAD?

ISPAD is the only international society focusing on all types of diabetes in the young throughout the world!

The Society aims to promote clinical and basic science, research, education and advocacy in childhood and adolescent diabetes. The strength of ISPAD lies in the scientific and clinical expertise of its members.
