

## **Eduardo Calliari**

### **ISPAD Director of Communications**

*Professor of Pediatric Endocrinology, Coordinator of Pediatric Diabetes Outpatient Clinic in Santa Casa de Sao Paulo, School of Medical Sciences*

#### **Bio**

Dr. Luis Eduardo Calliari is Assistant Professor and Coordinator of the Pediatric Diabetes Outpatient Clinic - Department of Pediatrics - Santa Casa de Sao Paulo School of Medical Sciences. He was graduated by the same Institution, where he currently is also involved in residency training and is founder and coordinator of the Students Diabetes League.

Acting for the Brazilian Diabetes Society, he is now Coordinator of the Department of Pediatric Diabetes, is responsible for the JDRF-SBD Program, and has participated as an author of chapters for the Brazilian Diabetes Guidelines.

Dr. Calliari is Member of the Editorial Board of Pediatric Diabetes (Journal), Diabetology and Metabolic Syndrome (Journal) and Executive Editor of Revista Paulista de Pediatria (Paulista Pediatric Magazine).

He was the National Coordinator of the DAWN Youth Program in Brazil, and is one of the organizers of SITEC – International Symposium of Technology in Diabetes, the first of its kind in the country.

His relation to ISPAD comes from 2002, when he became a member after participating as a student in Toronto's ISPAD Science School, organized by Prof. Denis Daneman. He was member of ISPAD Advisory Board from 2016-19, and became Director of Communications in the end of 2019.
