2019: Mentor at the 19th ISPAD Science School for Physicians in Rotterdam, the Netherlands

### Other relevant positions/memberships:

European Society for Pediatric Endocrinology member since 2018.

### Aims for the JENIOUS Group:

#### Networking

1. To put into practice a modern and straightforward tool for easy communication between JENIOUS members
2. To have the JENIOUS twitter account launched
3. Special attention to improve communication between young members from low-to-middle-income countries, giving them more active voice

#### Collaborative Studies

1. To give wider opportunities and visibility for health care professionals other than doctors to perform and lead studies
2. To connect with relevant stakeholders like diabetes and pediatric endocrinology associations and research foundations to get more sponsors

### **Mentorship**

1. To maintain JENIOUS mentorship program during the Science and Research Schools giving them prominent position
2. May JENIOUS mentorship become long-term to maintain the support given during the Science/Research Schools and to help the participants to have concluded their research projects.
