The German Association of Orthopaedic Technology is delighted to once again have the honour in 2020 of hosting the world’s leading get-together for associations in our industry. Even though the issue of treatment and care remains heavily influenced by different national healthcare systems, one question still unites us across all geographical borders: How can we improve the quality of our patient care? Because today more than ever before, any necessary progress must be based on global and interdisciplinary networks and exchange. For this reason we’d like to invite you to be part of our Global Networking Area, a place where you can connect with scores of new personal contacts and networks. They can and will make a positive and sustainable contribution to the future of care.

Klaus-Jürgen Lotz
President of the German Association of Orthopaedic Technology (Bundesinnungsverband für Orthopädie-Technik)

OTWorld is not just the largest but also the world’s leading industry get-together for manufacturers, dealers and service providers working in modern medical aids and equipment. Held every two years, it combines high-quality professional development with the world’s leading trade show. Its focus is on interdisciplinary exchange, covering all aspects of optimum treatment and care and aimed at experts and other interested parties working in areas where people and technology intersect. An industry highlight that you don’t want to miss!

OTWorld: A CONTINUING SUCCESS
With packed-out exhibition halls and congress rooms, 2018 saw the next chapter in the OTWorld success story. Some impressive figures made for the largest event in the history of OTWorld:

- **570 exhibitors** from **43 countries**
- **21,400 visitors** from **90 countries** (94 % trade visitors)
- **2,500 congress delegates** from **60 countries**
- **320 speakers** from **30 countries**

A FOCUS ON GLOBAL EXCHANGE
With a view to encouraging interdisciplinary and cross-border exchange, the German Association of Orthopaedic Technology (BIV-OT) is inviting national and international associations for prosthetics and orthotics, pedorthics, podiatry and physiotherapy to partner up with OTWorld and showcase their work free of charge in the Global Networking Area. The Global Networking Area is at the heart of the trade show action and gives both you and industry visitors from around the world the ideal forum for international exchange and in-depth discussions.

“The German Association of Orthopaedic Technology is delighted to once again have the honour in 2020 of hosting the world’s leading get-together for associations in our industry. Even though the issue of treatment and care remains heavily influenced by different national healthcare systems, one question still unites us across all geographical borders: How can we improve the quality of our patient care? Because today more than ever before, any necessary progress must be based on global and interdisciplinary networks and exchange. For this reason we’d like to invite you to be part of our Global Networking Area, a place where you can connect with scores of new personal contacts and networks. They can and will make a positive and sustainable contribution to the future of care.”

www.ot-world.com
THE IDEAL SHOWCASE FOR YOUR WORK

BENEFITS AT A GLANCE:

SHOWCASE your organisation to a keen audience of international trade professionals and attract new supporters and members for your work.

PROMOTE your own events by displaying information for our visitors.

NETWORK with fellow professionals and international contacts from the world of business, humanitarian organisations and from the R&D sector.

GAIN KNOWLEDGE AND INSIGHTS to benefit your national industry – as an OTWorld partner you are always in touch with the latest industry developments and trends!

OUR SERVICE TO YOU:

Don’t miss your chance to take an active part in the Global Networking Area at OTWorld 2020 and make full use of the following services:

• Free poster wall to present your work
• For a supplementary fee you can reserve one of a limited number of areas* with additional booth equipment (e.g. counter, stools, leaflet rack, monitor).
• Entry in the exhibition catalogue
• VIP package with a full ticket for the trade show, voucher for an exhibition catalogue and admission to the combined congress and trade show party
• Central information desk with a personal point of contact

As an OTWorld partner, you can make use of the following options to draw attention both to your organisation and to our global industry gathering:

• Invite your members and fellow professionals to OTWorld.
• Send out our visitor information and congress programme by post or email.
• Link your homepage to the OTWorld website.
• Include our banner ad on your website.
• Use our web banner as an email signature in your correspondence.

GET YOUR TICKET NOW!

To be a part of the Global Networking Area, you just need to register using the attached form. Please send it to Leipziger Messe by 29 February 2020. This will allow us to register you as an official exhibitor and means we can enter your information correctly in the exhibition catalogue and list of exhibitors.

Are you unable to attend our event but would still like to let your members know about OTWorld? Request our free information leaflets today to pass on to your members.

WELCOME TO LEIPZIG, THE TRADE FAIR CITY!

Leipzig is vibrant, cosmopolitan and welcoming. So when you visit OTWorld you should leave enough time for an evening out in the city centre. The historic old town provides a magnificent backdrop to an abundance of pubs, bars and restaurants lining the streets, inviting visitors to sit back and relax after an energising day at the trade fair and congress. As Saxony’s largest city, Leipzig boasts a huge range of cultural activities to entertain and delight. These include the Gewandhaus concert hall, opera house, Musikalische Komödie theatre, Schauspiel Leipzig playhouse and countless variety and cabaret shows to cater for all tastes. Discover some cultural highlights in and around Leipzig at: www.leipzig.de.
