ISTH FINANCIAL SUMMARY

SUMMARY

The ISTH remains in a strong financial position, with solid reserves and liquidity that continue to exceed one year of operating needs, underscoring the Society's long-term fiscal stability. In 2025, the ISTH experienced a significant increase in total revenues, driven by strong investment returns and the success of the ISTH Congress, resulting in growth in net assets following a decline in 2024. At the same time, the organization improved operational efficiency, reducing program expenses while maintaining a high level of support for core programs and strategic initiatives. This balanced performance reflects ISTH's ongoing commitment to financial stewardship while advancing the field of thrombosis and hemostasis.

MEMBERSHIP HIGHLIGHTS

- Membership increased by over 2% vs. 2024, marking the third highest total on record.
- The ISTH Skills Directory saw a 215% increase over the year, with 85 profiles completed.
- The ISTH Mentor-Mentee Program grew by an average of 23.5% over the past year, bringing the community to 44 mentors and 96 mentees.
- The ISTH implemented a new membership category for Advanced Practice Providers.

EDUCATION AND SSC HIGHLIGHTS

- Approximately 900 people attended the Guidelines and Guidance Session at the ISTH 2025 Congress, in addition to being the #1 viewed on-demand session.
- The SSC Subcommittee on Cancer-Associated Thrombosis and Hemostasis, in partnership with the European Hematology Association, launched an international study examining the real-world incidence of thrombosis and bleeding complications during CAR T-cell therapy to define risk and guide evidence-based supportive care.
- The SSC Subcommittee on Factor VIII, Factor IX and Rare Coagulation Disorders published the MAPTO Survey examining global approaches to identifying Factor VIII inhibitors in children receiving emicizumab treatment.

INDUSTRY RELATIONS

The ISTH has 12 Industry Roundtable members and 14 educational program supporters. Plus: Two Reach-the-World Fellowships received industry support for the first time (to begin in 2026), marking a significant step forward for the program.

EUROPEAN THROMBOSIS AND HAEMOSTASIS ALLIANCE (ETHA)

32 **Alliance Members**

The ETHA is a collaborative network dedicated to advancing awareness, policy engagement and advocacy for thrombosis, bleeding disorders and related blood health issues across Europe. ETHA is led and operated by the ISTH, providing strategic direction, management and coordination.

DIVERSITY, EQUITY AND INCLUSION

The ISTH is committed to diversity, equity and inclusion, ensuring global representation across the Society. As a truly international organization, The ISTH promotes equitable opportunities, inclusive leadership and collaboration worldwide.
