

WORKSHOP OVERVIEW AND INVITATION TO PARTICIPATE

ISTH Education Workshop on Thrombotic Disorders in collaboration with the Sociedad Mexicana de Trombosis y Hemostasia (SOMETH) and Grupo CLAHT

May 31- June 2, 2018

Hacienda Galindo
San Juan del Río Querétaro, Mexico

Introduction and General Information

The International Society on Thrombosis and Haemostasis (ISTH) is pleased to announce its **ISTH Education Workshop** taking place from May 31-June 2 in Querétaro, Mexico.

ISTH continues its successful series of courses offering training in biological and clinical aspects of thrombosis and hemostasis and is pleased to offer its first workshop in Mexico. ISTH has worked in full collaboration with the Mexican Society on Thrombosis and Hemostasis to craft the program.

Target Audience:

This meeting is targeted to:

- Clinicians and trainees in hemostasis, hematology, transfusion medicine, vascular medicine, or intensive care medicine,
- PhD wishing to acquire clinical and basic knowledge in the field, or
- Senior hematologists looking for an update.

Objectives:

By attending this workshop, participants will:

1. obtain an understanding of the latest developments in VTE and thrombosis management
2. learn to identify, diagnose and have knowledge of the latest treatment for patients with risk of thrombosis
3. have the opportunity to network with leading experts in the field of thrombosis and hemostasis, benefiting from the small training size (200 maximum participants)

The workshop will provide two and a half days of intense examination and discussions on the subjects of venous thromboembolism and other thrombotic disorders.

Leading scientists with in-depth experience in education will lead the training workshop. All speakers will deliver focused lectures followed by ample time for discussion and close interaction with the participants. *(Please see the full program attached.)*

Key Facts:

Expected participation: 150 - 200 (allowing for maximum discussion, interaction and networking)

Critical dates:	Website go-live date:	March 1 2018
	Registration open:	March 1, 2018
	Pre-registration deadline:	May 1, 2018

Planned Promotional Activities:

- Dedicated workshop webpages and promotion on the ISTH website (www.isth.org)
- Broadcast emails (3x) to entire ISTH membership and prospects (total of around 20,000 contacts)
- Announcements in the monthly ISTH e-newsletters (March-May)
- Listing in medical/scientific calendars of events
- Promotion via 50 national and regional T+H societies worldwide
- Monthly social media inclusions on ISTH Facebook, Twitter and LinkedIn pages
- Post-meeting reporting

Sponsorship Opportunities

Sponsoring this workshop is an ideal opportunity to position your company as championing the training and education of young professionals. It will also provide you with wide-reaching visibility among tens-of-thousands of ISTH members and other T+H professionals around the world who will be informed about this workshop and its outcomes.

The ISTH offers corporate partners the following support opportunities:

- Sponsored symposia sessions
- Exhibition
- Attendee sponsor packages

The ISTH also invites the promotion of this workshop to interested participants via your company's offices and affiliates around the world. Partners may also support the workshop through Educational grants or sponsorships

Sponsorship opportunities will be given on a first-come, first-serve basis. There is no priority ranking for this workshop.

1. Sponsored Symposia

The workshop program offers three time slots for companies or organizations interested to inform ISTH and SOMETH participants about their latest research, product developments or other scientific activities to organize sponsored symposia.

Sponsored symposia are organized by the sponsor or designated agent. The program must be scientific or educational in scope. CME accreditation will not be provided through the workshop, is not required but may be obtained at the discretion and at the cost of the sponsor.

The sponsor is required to adhere to the official rules for speakers and chairpersons at sponsored symposia and inform the ISTH and SOMETH organizers of the content, format and speakers and obtain formal approval for the program.

All sponsored symposia must be held in the Hacienda Galindo meeting space during the official time slots offered by ISTH in this sponsorship document or otherwise determined. Organizers of sponsored symposia held outside the venue and not during an official slot will face penalties to be decided by the ISTH and SOMETH Organizers. These can include financial fines equivalent to a symposium cost and/or exclusion to participate at future ISTH meetings.

Content of sponsored symposia must comply with any relevant guidelines applicable to the sponsor, be held in English or Spanish and be open to all participants. It is the sponsor's responsibility to interpret and comply with all applicable regulations or guidelines.

Symposia = \$10,000

Thursday, May 31, 2018 13:30-14:45 (75 minutes)

Friday, June 1, 2018 19:15-20:30 (75 minutes)

Saturday, June 2, 2018 14:30-15:45 (75 minutes)

NOTE: Lunch will be provided to the participants before the main program begins as part of their registration fees.

The sponsorship amounts for sponsored symposia, unless otherwise stated, include the following:

- Room (as specified and booked by the sponsor) in the venue and standard audio-visual equipment as used for the main workshop sessions
- One (1) AV technician in room
- Listing of the sponsored symposium in the Final Program and on the Workshop website (display in accordance with prevailing CME regulations)
- A link to a specific website or html version for the specific sponsored symposium (provided by the sponsor) will be added on the workshop website under the symposia programs section
- Opportunity to display one (1) promotional poster in the registration area in the venue as designated by the ISTH Organizers (the day before during registration hours and the morning of the session)
- Use of the ISTH and SOMETH logos on the respective sponsored symposium invitations (only) (invitations to be approved by the Organizers)
- Inclusion in a one-time email shot listing all sponsored symposia that will be sent by ISTH to registered ISTH participants two (2) weeks prior to the workshop

- One (1) set of contact details of registered participants in advance (approx. two (2) weeks) of the workshop (one-time use only for invitation mailing) in excel format. Emails will be included for participants who give permission for their email addresses to be shared. Participants who opt-out are excluded from list.

2. Exhibition

The workshop will offer a limited area in the venue for display of informational items.

Opportunities for sponsors to reserve a designated **table** (ISTH provided) or reserve space for a **pop-up booth** (maximum 2m x 2m size, to be supplied by sponsor) in the registration and break areas. **Location of booth is available on a first-come, first-serve basis.**

2m x 2m maximum = \$1,500 USD

Space-Only exhibit areas include:

- Company profile with logo in the Final Program and on the workshop website (sponsor and exhibitor page; display in accordance with prevailing CME regulations)
- Coffee breaks and lunches for registered exhibit personnel are included
- One (1) copy of the Workshop Program per booth
- One (1) exhibitor badge

3. Sponsored Attendee packages

Partners are encouraged to support participants to attend the full meeting. Sponsorship packages include:

- Full registration with access to all public and meet the expert sessions
- Two (2) nights' accommodation—May 31 & June 1
- All meals included from lunch on May 31 to lunch on June 2
- Online and print program materials

Participants will be chosen by SOMETH. Sponsoring organizations will be recognized in the program book with the company details. Sponsors will be provided the contact details of those doctors that have been sponsored and given the opportunity to interact with the participants during the meeting.

Attendee package = \$600 USD per person

Minimum sponsorship amount is 10 attendees

Supporters sponsoring 20 or more attendees will be provided one 2m x 2m complimentary exhibition space

4. Program Advertising

½ page advertisement in the non-scientific section of the workshop program provided to participants on site.

Program Ad = \$750 (up to 4 supporters)

Program

Day 1 – May 31

12:00 – 13:30	Attendee Arrival and Registration
13:30-14:45	Sponsored Lunch Symposium
15:00-15:20	Course Introduction / Introducción al Curso Global Impact of Thrombosis /Impacto Global de la Trombosis - Highlights of the Course / Puntos Principales del Curso - Blueprint of Course / Plan General del Curso Claire McLintock (20 min) Preserving the Body's Vital Flow Overview of Hemostasis and Thrombosis Revisión de Hemostasia y Trombosis - Coagulation Cascade - Procoagulants, Natural Anticoagulants - TFPI, TAFI, Platelets, VWF Jeffrey Weitz (30 min) Aquired Risk Factors for VTE. Predictive scores and D-Dimers Aquired risk factor for VTE. Escalas predictivas y Dímeros -D Angel Gabriel Vargas Ruiz (25 min) Q&A
15:20-15:50	
15:50-16:15	
16:15-16:30	
16:30– 17:10	Keynote Speaker The Emerging Role of NETs in Venous Thrombosis and Immunothrombosis / El Papel de NETs en TEV y en Inmuntrombosis (35 min + 5 for questions) Jose Antonio Diaz (USA/Argentina)
17:10 – 17:40	Break
17:40-18:40	Case Presentations (Specific to Session 1 topics) Presentacion de Casos (Temas de la session I) (10 minute per case, 10 minute discussion. Two prepared cases and one from the Audience). Jean Marie Connors (prepared case on risk factors of thrombosis) Raúl Carrillo Esper (prepared case on bleeding) Jeffrey Weitz (moderate a participant presented case)

18:40- 20:20	Session: Special Populations (25 min / talk)
18:40-19:05	<u>Pregnancy / Embarazo:</u> Venous Thromboembolism in Pregnancy Claire McLintock
19:05-19:30	<u>Thrombosis in Unusual Sites /Trombosis en Sitios Inusuales:</u> Cases: CNS Venous Thrombosis/ Trombosis Venosa Intracraniana Retinal Thrombosis / Trombosis Retiniana Fernando Barinagarrementería
19:30-19:55	<u>Pediatric Pulmonary Embolism Cases / Pediatría Embolismo Pulmonar</u> TBD
19:55-20:20	<u>Cancer and Thrombosis/ Cáncer y Trombosis:</u> How to Personalize Treatment / Como Personalizar el Tratamiento. Jean Marie Connors
20:20-20:30	Q&A
20:30	Welcome Dinner /Cena de Bienvenida

Day/Día 2 June 1

8:30– 9:45	Session: Arterial thrombosis / Trombosis Arterial
8:30-8:55	Pathophysiology of Stroke: State of the Art Patofisiología de EVC
8:55-9:20	Carlos Cantú Brito
9:20-9:45	Acute Stroke Treatment: Including Lytic Therapy Tratamiento de EVC Agudo: Incluyendo Terapia Lítica Fernando Barinagarrementería
9:45-10:00	Peripheral Arterial Occlusion: Treatment Trombosis Arterial Periférica: Tratamiento (Including how to Anticoagulate Vascular Grafts & Vascular Anastomosis/ Anticoagulación en Injertos y Anastomosis Vasculares) Ignacio Escotto-Sanchez
	Q&A
10:00 -10:30	Break
10:30 – 11:45	Session: Special Interactive Topics on Arterial Thrombosis / Temas Interactivos sobre Trombosis Arterial (25 min with Audience Response)
10:30-10:55	Arterial Thrombosis and Valvular Disease in APS: Management Trombosis Arterial y Enfermedad Valcular en SAF: Tratamiento
10:55-11:20	Mary Carmen Amigo
11:20-11:45	Mechanical Heart Valves /Peri-op Management Manejo Peri-operatorio de Válvulas Mecánicas
11:45-12:00	Raúl Izaguirre
	A.Fib as a cause of Arterial Thrombosis: Emphasis on Prevention/ Fibrilación Auricular como causa de Trombosis Arterial: Enfoque en Prevención Manlio Marquez

	Q&A
12:00-13:15	Session: Introduction to Antithrombotics / Introducción a Antitrombóticos
12:00-12:25	Antiplatelets Overview and Peri-op Management/ Introducción a Antiplaquetarios y Manejo Perioperatorio
12:25-12:50	Carlos Areán
12:50-13:15	Primary and Secondary CAD Prevention Prevención Primaria y Secundaria de ECA
13:15-13:30	Armando García Castillo
	Overview of Anticoagulants in use: Clinical and Lab Approach Anticoagulantes en uso: Punto de Vista Clínico y de Laboratorio.
	TBD
	Q&A
13:30-14:30	Lunch
14:30- 15:00	How to Manage Pediatric VTE / Tratamiento de TEV en Pediatría.
	TBD
15:00 – 15:50	VTE / Tromboembolia Venosa (25 minutes)
15:00-15:25	Prophylaxis for VTE in the clinical Patient /Profilaxis para TEV en pacientes hospitalizados.
15:25-15:50	Suely Rezende
15:50-16:00	VTE Diagnosis – Imaging /Dx TEV- en Imágenes
16:00- 17:00	Erik Kimura
	Q&A
	Clinical Cases with Images and Audience Response Casos Clínicos con Imágenes y Respuesta de la Audiencia (3 cases, 20 minutes each)
	Erik Kimura (VTE case – ideally rare or difficult diagnosis)
	Claire McLintock (pregnancy/women’s case)
	TBD (pediatric case)
17:00-18:00	Break and Networking
18:00 19:00	Meet the Expert / Reunión con un Experto (separate small interactive 1 hr sessions) <i>Sign-up 20 personas max.</i>
	Jean Marie Connors/ Evelyn Cortina de la Rosa: Difficult Cases in Treatment of Thrombosis in Patients /Casos difíciles en el Tratamiento de Trombosis.
	Mary Carmen Amigo/ Alicia Blanco Management of Catastrophic APS / Tratamiento de SAF Catastrófico
	TBD / Dr. Rogelio Paredes: Case Discussions in Pediatric Thrombosis / Discusión de Casos en Trombosis en Pediatría.
	Jose Antonio Díaz/ Raúl Carrillo Esper. Pathophysiology and Treatment of DIC and Immunothrombosis (Fisiopatología y tratamiento de CID e Inmunotrombosis).
19:15-20:30	Sponsored Dinner Symposium

Day /Día 3 June 2

8:30 – 9:45	Session: Complications of VTE and Treatment Complicaciones de Tratamiento de TEV
8:30-8:55	Acute Thrombolysis: Risks / Benefits in High Risk Pulmonary Embolism
8:55-9:20	Beneficios y Riesgos de la Trombolisis en TEP de Alto Riesgo.
9:20-9:45	Carlos Jerjes Sanchez-Díaz Pathogenesis, Prevention and Management of Post-Thrombotic Syndrome Patogenia, Prevención y Tratamiento del Síndrome Post-Trombótico. Jose Antonio Diaz Pathogenesis and Treatment of Chronic Thromboembolic Pulmonary Hypertension. Case Discussion. Patogenia, Diagnóstico y Tratamiento de Hipertensión Pulmonar Tromboembólica. Discusión de casos. Carlos Jerjes Sanchez-Díaz
9.45-10:30	Plenary Session Ongoing Studies and Emerging Antithrombotic Treatment Agents Nuevos Tratamientos Antitrombóticos Jeffrey Weitz
10:30-11:00	Break
11:00- 12:50	Session on Problem-based Laboratory Approach / Enfoque en el Laboratorio Basado en Problemas
11:00-11:20	The lab in the diagnosis of APS/ El laboratorio en el diagnostic de Síndrome Antifosfolípido.
11:20-11:40	Alicia Blanco
11:40-12:00	Prothrombotic Molecular Changes in VWF in A.Fib and CVA Alteraciones Moleculares Protrombóticas del FVW en FA y EVC Marta Eva Viveros
12:00-12:20	Thrombotic Thrombocytopenic Purpura and Hemolytic Uremic Syndrome PTT y SUH: Clinical and Laboratory diagnosis/ Diagnóstico Clínico y de Laboratorio Guillermo Ruiz Delgado
12:20-12:40	Hereditary Thrombophilia / Trombofilia Hereditaria Does HT Guide Management / Impacto en el Tratamiento de TEV? Guillermo Ruiz Arguelles
12:40-12:50	Some simple cues to order hereditary thrombophilia studies, when indicated / Algunas claves simples para solicitar estudios de TH, cuando está justificado Alicia Blanco Q&A
12.50-13:45	Session: Interactive Case Presentations. Audience Response Management of Bleeding Complications on Anticoagulants Tratamiento de Complicaciones Hemorrágicas (20 minutes /talk).
12:50-13:10	DOACS: Jean Marie Connors
13:10-13:30	VKA's and Heparin: Suely Rezende
13:30-13:45	

	Q&A
13:45-14:15	Stump the Expert :Case discussions / Discusión de Casos (30 min) Ignacio Escotto-Sanchez (Vascular surgery) TBD (Pediatrics) TBD (Adult hematology)
14:15:	Evaluation and End of Meeting / Evaluación y Final de la Reunión Claire McLintock /Suely Rezende / Alicia Blanco / Raúl Izaguirre
14:30-15:45	Sponsored Lunch Symposium
