Doing Good Index 2018

The Centre for Asian Philanthropy and Society (CAPS) has recently released their Doing Good Index. Check it out at: <http://caps.org/our-research/doing-good-index-2018/>

The inaugural Doing Good Index examines the enabling environment for philanthropy and private social investment across 15 Asian economies. Composed of four areas—tax and fiscal policy, regulatory regimes, socio-cultural ecosystem, and government procurement—the Index reveals how Asian economies are catalyzing philanthropic giving. If the right regulatory and tax policies were in place, Asian philanthropists could give over

US\$500 billion, contributing to the US\$1.4 trillion annual price tag needed to achieve the Sustainable Development Goals.

The Index serves as a unique and useful body of data for Asian governments, as well as for nonprofits, foundations and charities in Asia, to learn from each other. At a time when policy is evolving, the social sector is growing, and interest in philanthropy is rapidly developing, the DGI shows the potential for Asia to leapfrog and become a leader in social innovation.

The Development of Social Economy in South Korea: Focusing on the Role of the State and Civil Society | 韓國社會經濟的發展：聚焦國家與公民社會的角色

Jongick Jang. December 2017, Volume 28, Issue 6, pp 2592–2613

Abstract: The existing literature has claimed that the state-backed social enterprises in South Korea could be degenerated since the South Korean civil society is not advanced enough to safeguard them against the isomorphic pressure wielded simultaneously by the state and the market. Taking this claim seriously, this paper examines the recent development of social economy in South Korea. Based on the considerable changes in the long-standing statist model of non-profit sector since the late 1990s, the enormous impact of 2011 FAC on the civil society and social economy, and more frequent collaborative effort between the local governments and civil society organizations since 2012, this paper claims that the development of social economy in South Korea has recently shifted from dominance of state power to a mixture of top-down and bottom-up approaches.

摘要：現有的文獻認為，韓國國家支援的社會企業有可能存在退化的危險，因為韓國的公民社會不足以發達到抵抗同時來自國家和市場的同構化的壓力。謹慎考慮這一論斷，本文檢驗了韓國近期的社會經濟發展。二十世紀90年代後期以來，長久以來存在的非營利部門國家主導模型出現了許多變化；2011年合作社行動框架（Framework Act of Cooperatives, FAC）給公民社會和社會經濟帶來了極大影響；2012年以來基層政府和公民社會組織更為頻繁地進行合作；基於以上幾點，本文認為韓國的社會經濟發展已在近期由國家權力主導轉變為自上而下與自下而上方法的組合。

The Paradox of Integration: Work-Integration Social Enterprises (WISE) and Productivist Welfare Regime in Hong Kong | 融合的悖論：香港的工作整合型社會企業與生產主義福利制度

Haijing Dai, Yan Lau, Ka Ho Lee. December 2017, Volume 28, Issue 6, pp 2614–2632

Abstract: After the Asian Financial Crisis, the government of Hong Kong embraced the model of work-integration social enterprise (WISE) to sustain its facilitative and productivist welfare regime. Using the WISE

of Pro-Love for marginalized women as a case study, the article examines the meaning of employment and social disadvantage in the organization. The ethnographic data reveal that while the WISE encourages women to participate in the paid labor market, it constructs employment in the social enterprise as part-time jobs for supplementary family income, restricts the extension of social networks for the female workers, and reinforces the cultural stereotypes of marginalized women. The study reflects on the mechanisms of the project of WISE in the welfare contexts of Hong Kong, and argues that programs targeted at labor participation cannot be automatically translated into reduction of exclusion in other domains. Long-term planning, policy coordination, and social advocacy are necessary to achieve social integration.

摘要：亞洲金融危機後，香港政府採用了工作整合型融合社會企業（WISE）模式以維持其促進性生產主義的福利體制。用為被邊緣化的女性成立的 WISE of Pro-Love 為案例研究，本文檢驗了就業和社會弱勢在組織中的含義。民族志資料揭示，儘管 WISE 鼓勵女性參與有償勞動力市場，它將在社會企業中的就業構造為補充家庭收入的兼職工作，限制了其中女性員工社交網絡的拓展，更加強化了對於被邊緣化的女性的文化固有印象。本研究反思了香港福利背景下 WISE 項目的機制，並且認為針對勞動力單于的項目並不能自動轉化為減少其他方面的排斥。要實現社會融合，必需有長期的規劃、政策的協調和社會宣導。

Submission Guidelines

Authors from all over the world are invited to submit original and unpublished papers or extended abstracts, which are not under review in any other conference or journal. All submissions will be peer reviewed by the program committee based on their originality, significance, methodological soundness, and clarity of exposition.

Submissions (extended abstracts or full papers) must be written in English and should be in PDF format. They must follow the instructions in the template file, available in Microsoft Word format at:

<http://www.carmaconf.org/template.docx>

Full-paper length must be between 4 and 8 pages (A4 size), incorporating all text, references, figures and tables. Extended abstracts (which will not receive a DOI) should not exceed 3 pages.

These guidelines are strict: papers failing to adhere to the guidelines (by being more than 8 pages, altering margins or not following the template) will be rejected without consideration of their merits. Submissions imply the willingness of at least one author to register, attend the conference, and present the paper.

CARMA 2018 is using the OCS platform of UPV Press to manage the submissions. In order to submit your paper, you must first create an OCS account. OCS will provide you with a submissions homepage where you can register your paper submission and make appropriate changes. The submission website is:

<http://www.carmaconf.org/submissions/>

The organizing committee looks forward to welcoming you all to a fruitful conference with open discussions and important networking to promote Internet and Big Data research across Economics and Social Sciences.
