May-June 2018

CONFERENCE NEWS

ISTR Conference App

We are excited to announce that the ISTR Conference App is now available in the App Store or Google Play. Powered by Core-Apps, this app represents a major improvement from our past apps. Most importantly, this app draws information automatically from the ISTR All Academic system, so the app will reflect the most up-to-date information available within minutes. When you download the conference app, you will be able to easily review the conference program, including full abstracts, and will have the ability to filter the sessions by track and by type, search for authors, or by any keyword. Bookmark sessions to build your own personalized schedule and star your favorites for later reference.

The app will feature local area restaurants, transportation information, and will connect you to other participants and hear what everyone is saying on social media. It's free, so download now!

ISTR Conference Blog

Our ISTR Conference Blog is the place to go for a richer level of detail about the upcoming ISTR Conference. The blog features discussions about some of the sessions planned for the conference, reflections from past ISTR PhD seminar students, descriptions of some of the conference special events, blogs that offer some context of the Dutch civil society sector, and suggestions for how to spend your time in Amsterdam. Sign up today by visiting: <https://istrconference.wordpress.com/> and clicking on the follow button.
