PHILLIPSBURG | April 10, 2019
FORT SCOTT | May 29, 2019

A.M. KAN WORK!

AGENDA

8:30 AM - 3:30 PM

NO CHARGE • LUNCH PROVIDED

8:30 Networking and Refreshments

9:00 Welcome and Introductions

Overview of Asset Management &
Energy Efficiency

Core Component 1: Current State of the Assets

Workshop on Inventory of Assets

10:30 BREAK

10:45 Core Component #2: Level of Service

Workshop on Level of Service

Core Component #3: Critical Assets

12:00 Lunch (Provided on site)

1:00 Workshop on Critical Assets

Core Component #4: Life Cycle Costing

Workshop on Life Cycle Costing

2:15 BREAK

2:30 Core Component #5: Long Term Funding
Strategy

Implementation of Asset Management &
Energy Efficiency

3:30 Wrap-up and Evaluation

ASSET MANAGEMENT WORKSHOP FOR UTILITIES

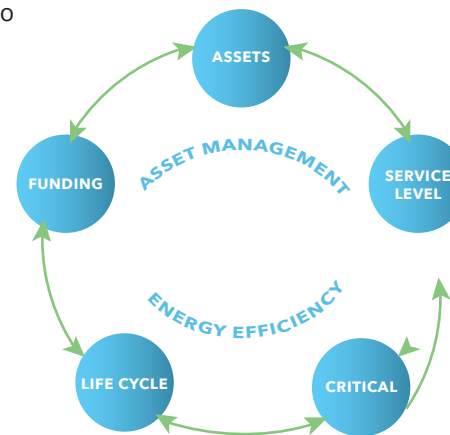

A.M. KAN WORK!

In the coming years, water and wastewater utilities will need to implement new administrative systems and management tools to allow them to adapt to increased regulatory requirements and environmental complexities. A.M. KAN WORK! is one of the “new” tools to help communities address:

- new and stricter regulatory requirements;
- population changes;
- service demands;
- limited water supplies;
- variable climate conditions;
- aging infrastructure;
- increased energy costs; and
- limited state and federal funding.

Asset management is a relatively new program to Kansas and Kansas utilities, particularly for water and wastewater systems. A.M. KAN WORK! provides a structured program for helping water and wastewater utilities achieve sustainability through sound management practices.

This workshop can assist your utility system in defining the investment priorities for the level of service expected by your customers. Asset management provides the tools needed to actively and consistently analyze current operations and future needs to develop robust management systems and well-designed infrastructure plans to meet the increasing challenges.

Water and wastewater operators can receive 5 hours of certification credit for attending this workshop.
