Responsibilities for Participation:

1. Each participating team must provide its own transportation to and from the competition sites at area courthouses and provide transportation and funding to and from state and national competition sites. NOTE: In 2022, the Kansas Bar Association will not have funding to assist teams with paying the cost associated with the national competition. It will be the responsibility of the team going to Nationals to pay for all costs associated with the national competition. Should this change, coaches will be notified. Each team must obtain the support of the principal or school administrator for entry into the project.

2. Each team must assume responsibility for clearing tournament dates with the principal and for placing them on the school calendar.

3. Each team must submit all questions regarding the mock trial problem and the competition in writing to the Competition Coordinator.

4. Each team must agree that the decisions of the Competition Coordinator are final, whether made before, during or after the competition.

We agree to meet the above responsibilities for participation in the 2022 Kansas Bar Association Young Lawyer Section Kansas High School Mock Trial Competition.
