

Michael A. Della Ripa, DVM, DACVIM (SAIM)

Dr. Della Ripa maintains an interest in all aspects of small animal internal medicine with particular interests in endocrinology, gastroenterology, local infectious diseases, hematology, pharmacology, rheumatology, nutrition, and urology. He has authored and co-authored articles in respected veterinary publications and lectures on small animal internal medicine topics.

Maggie Schuckman, DVM, DACVIM (Cardiology)

Dr. Schuckman focuses on all aspects of small animal cardiology with particular interests in congenital heart disease, minimally invasive catheter procedures and dilated cardiomyopathy. Dr. Schuckman is an active advocate of continued education for veterinary professionals and lectures on various small animal cardiology topics to veterinarians, veterinary students and technicians.

Kathy Wright, DVM, DACVIM (Cardiology and Internal Medicine)

Dr. Wright is well known for her study of the diagnosis and treatment of arrhythmias in companion animals. She was the first veterinarian in the country to adapt radiofrequency catheter ablation to dogs. Dr. Wright is one of a handful of veterinary specialists in the United States and Canada to be board-certified in both Internal Medicine and Cardiology. She is a prolific author of veterinary subjects for textbooks and veterinary publications. She has particular interest arrhythmias, cardiac electrophysiology, and radiofrequency catheter ablation.
