ACEC-KY DIRECTORY OF FIRMS

USING THIS DIRECTORY

The purpose of this directory is to foster a better understanding of the relationships between the client, the public and the professional engineer in private practice.

Firms listed in this directory are members of the American Council of Engineering Companies of Kentucky. The firms maintain offices or provide engineering services in Kentucky, are staffed by qualified, registered engineers and are pledged to uphold high professional and ethical standards. By their membership, they subscribe to the code of professional conduct established by law and are recognized as responsible, independent and impartial experts in their fields of practice.

This directory of Kentucky consulting engineers will assist in securing qualified engineering services for any project. Information is also available on consulting engineering services in other states.

For more information about the American Council of Engineering Companies' member firms or members of the American Council of Engineering Companies in other states, contact ACEC-KY at 1-800-455-5573 or email us at: acecky@kyengcenter.org.

5H TECHNOLOGIES, INC.

Employees (8)

110 South 3rd Street
Paducah, KY 42001

P: (270) 448-0755

F: (270) 448-0754

E: dh@5htech.com

Website: www.5htech.com

PRINCIPALS: Crystal L. Hutcheson – President; David F. Hutcheson Jr., CHMM – Vice President; David F. Hutcheson, Sr., PE – Board Chairman and Chief Engineer

DISCIPLINES: Civil (Environmental); Civil (General); Civil (Municipal); Chemical; Environmental; GIS; Hazardous Waste; Web Page Design; NEPA/Environmental Services; Health & Safety; Biology; Computer Applications; Stormwater.

DESCRIPTION: 5H Technologies, Inc. provides professional services in the following areas: environmental engineering (regulatory compliance, permitting, reporting, and training), project controls services, GIS services, wetlands delineation/mitigation, stream mitigation, NEPA services, sensitive resource management, safety compliance/reporting, environmental assessments (Phase I, II, and III), site remediation, HAZMAT services, and environmental monitoring services. 5H Technologies, Inc. is a woman-owned small business based in Paducah, Kentucky. The company is certified by the US Small Business Administration as a Historically Underutilized Business Zone (HUBZone) small business concern. In November 2006, the firm received its Disadvantaged Business Enterprise (DBE) certification from the Kentucky Transportation Cabinet (KYTC). 5H Technologies, Inc. is prequalified in several disciplines by KYTC. The firm has licensed professionals in Chemical, Environmental and Civil disciplines.

DESCRIPTION: American Engineers, Inc. (AEI),
incorporated in 1983, provides professional
design consulting services in planning,
engineering, project funding, subsurface
investigations, landscape architecture,
surveying, and construction support services for

infrastructure projects. Our valued state agency,
municipal, Federal, and private sector clients
operate in the transportation, aviation, industrial,
commercial, land planning, military, educational,
healthcare, and water resource sectors. Core
services include transportation (rural, urban,
interstate roadways, and airports), structural
(bridge, facilities), site development (feasibility
studies, site layout and selection, grading
and drainage, utilities infrastructure design,
pavement, and streetscapes), geotechnical
(drilling, laboratory testing, and engineering),
environmental (NEPA, ESAs, permitting), right-
of-way acquisition, and geospatial (conventional
surveying, GPS, GPR, SUE, LiDAR, UAV/UAS,
and Bathymetric).

DESCRIPTION: Bell Engineering is a locally
owned and operated civil engineering firm
founded in Lexington, Kentucky by Mr. Howard K.
Bell in 1914. Originally Howard K. Bell Consulting
Engineers, Inc. (HKB), our firm provided water,
wastewater and stormwater engineering services
to clients and communities throughout Kentucky
and West Virginia. Today, we are a full service
engineering firm providing a variety of civil,
environmental and other engineering services
to many different markets including municipal,
industrial, commercial, federal, energy and
natural gas, transportation and education. We are
currently providing these services in numerous
states throughout the country and are capable of
working anywhere within the United States.

Professional services include rate analysis,
feasibility studies, conceptual design, construction
management, operations management, industrial
parks, storm water management and permitting,
solid waste disposal, environmental engineering,
structural, dams, water and wastewater, site
development, value engineering, industrial
pretreatment and landscape architecture.

DESCRIPTION: B&N was founded in 1912
in Columbus, Ohio and has developed into a
nationally recognized full-service engineering
firm with capabilities in virtually every area of
municipal development and infrastructure. For
more than 100 years, B&N has provided quality
engineering, superior solutions, and reliable
facilities to communities throughout the region.
Our success is driven by a passion for advancing
the built environment with exceptional concern
for quality of life, safety, and sustainability. Our
professional staff of 340 includes engineers,
environmental scientists, geologists, surveyors,
architects, and more. Our design professionals are
supported by experienced technicians, drafters,
construction representatives, and administrative
staff. Our ability to integrate engineering and

ACEC-KY DIRECTORY OF FIRMS

C other project-essential services into one seamless team provides a distinct advantage to our clients. Beyond on-time, on-budget completion, our multidisciplinary project teams work to diligently add value throughout the process. We consider aesthetics, function, maintenance concerns, and much more to develop solutions that serve client needs long into the future. The size and diversity of B&N's services can be measured by our inclusion in the *Engineering News Record* list of top 500 design firms in the United States for over two decades.

DESCRIPTION: For over 20 years, Cannon & Cannon, Inc. (CCI) has been providing services that create the canvas of our community. From the initial due diligence through design and construction inspection, our extensive experience in working with local, state and federal agencies allows us a unique perspective for keeping your project on track. That's what we mean when we say "Enhancing Community Life by Design."

CCI is a service focused consulting firm offering a wide range of public works related engineering services. The firm employs a diverse group of registered professional engineers with specific expertise in areas such as water/sewer, traffic/transportation, stormwater, site/community enhancement, alternative transportation/pedestrian trails and greenways and general civil engineering. Working alongside our field survey group, we offer a complete professional service package for public works/infrastructure design projects. We are very proud of our team of professional and technical design staff.

Cannon and Cannon has offices in Knoxville, TN, Memphis, TN, and Bowling Green, KY.

DESCRIPTION: Collins is an ENR Top 500 Design Firm and provides design and analysis services coupled with field experience to the transportation, marine, construction, and land development industries. Collins' insistence on obtaining firsthand knowledge means that our engineers are on the project from start to finish, from the initial on-site inspection to the design of repairs, from performing the construction administration to following up with construction inspection. Such practical experience provides a unique and customized approach in the development of solutions, and provides continuity for our clients.

CONNOLLY CONSULTING ENGINEERS, PLLC

Employees (4)

257 Regency Circle
Lexington, KY 40503

P: (859) 402-0221

E: info@cceky.com

Website: www.cceky.com

PRINCIPALS: Thomas B. Connolly, PE, CEM,
LEED-AP BD+C

DISCIPLINES: Mechanical/Electrical, Plumbing.

DESCRIPTION: Connolly Consulting Engineers, PLLC has been providing full service mechanical and electrical engineering and energy services since 2002. We perform many design/build projects, and have a long history of creative design solutions and overcoming seemingly impossible renovation challenges. We make recommendations and clearly communicate the pros and cons of design choices to help our client understand how the M/E/P systems will function in their building. Environmental impact and energy efficiency is an important aspect of all our designs. We often provide economic analyses, energy audits, or whole building energy models to assist investors in making decisions. We design the appropriate level of quality, energy efficiency and durability into each project to match our client's needs and desires.

All our engineers are hands-on-engineers - although we work full-time as consultants. We perform hands-on construction work in many trades, to continually learn and see quality-finished projects. Doing construction work with our own hands helps us create better construction documents, and builds our respect for the skilled tradesmen on each project. Contractors tend to return this respect, and this results in strong working relationships. While keeping sight of our role on the project, we are reasonable to work with, and we know how to stay on the same team with contractors on the job site to deliver on- time and in-budget construction.

DESCRIPTION: DLZ has been protecting our country's natural resources and improving our nation's infrastructure for nearly a century.

We work on projects ranging from short-term, modest problem-solving investigations and studies to conducting and managing long-term, multidisciplinary, multi-million dollar programs. Our philosophy begins with providing unmatched client service while meeting all of the budget and schedule objectives for the project. Our engineers, architects, planners, and technical support staff are innovative and will work with our clients to establish a shared vision of their projects. Our goal is to turn our clients' visions into reality, from exceptional planning and design through construction and post construction. DLZ is a multidisciplinary firm with rich Kentucky history. Our Kentucky operation began as Brighton Engineering in the 1950's and became one of the state's premier transportation firms during the height of the development of our parkways and interstates. After the DLZ acquisition in 2004, DLZ Kentucky was able to expand its range of services by drawing from expertise in more than 18 other offices throughout Ohio, Indiana, Illinois, Michigan, and even internationally.

DESCRIPTION: For over two decades P&A Engineers and Consultants, Inc. has provided a wide range of engineering, surveying, and environmental services. Our client list includes the mining industry, the oil and gas industry, the petroleum industry, commercial real estate

developers, the marine transportation industry, the bulk material transportation industry, as well as federal, state, and local governments. We also provide Technical Consultant and Expert Witness services to the legal community. We believe that is what makes us different from other companies that you may be familiar with is that many of our engineers, scientists, and technicians have come directly from the industries that we service. This enables us to provide services and solutions that are real-world practical, not pie-in-sky fantasy. In short, saying, "If we draw it, you can build it" is not just a metaphor, but a governing philosophy.

ACEC-KY is headquartered in the Kentucky Engineering Center (KEC), the professional home of Kentucky's engineers. KEC serves Kentucky's engineers with a modern, efficient and professional home, complete with a computer lab and training facility. The Kentucky Engineering Center hosts professional meetings and sessions with state leaders. Several organizations use the facility as a meeting location, making KEC well on its way to becoming "the" engineering center for Kentucky.

KENTUCKY ENGINEERING CENTER 160 DEMOCRAT DRIVE, FRANKFORT, KY 40601

PHONE: 502-695-5680 • 1-800-455-5573 • FAX: 502-695-0738 • EMAIL: ACECKY@KYENGCCENTER.ORG • WWW.KYENGCCENTER.ORG
