WHY SHOULD I HIRE A VETERAN?
Veterans have many skills necessary to thrive in the water sector. They have experience working in a highly regulated environment, they have shown a commitment to public service, and they handle stress well in crisis situations. Veterans are returning to homes in rural and urban locations and looking for employment.

You need skilled employees and Veterans need jobs. It’s a perfect fit.

How Do I Appeal to Veterans?

- Veterans are often **driven by purpose** and having a **mission** – highlighting key components of your utility or organization will appeal to this mindset of Veterans.
- HR Staff, recruiters and hiring managers should be trained on how to **recruit, select, and on-board Veterans**. Without training, good intentions fail because the HR team may continue to follow past procedures and systems that might unintentionally screen out qualified Veterans. ([Soldier for Life](#))
- **Including a Veteran** in your HR team can greatly aid in the translation of military jargon on resumes. Veterans in HR could also assist in interviews. ([Soldier for Life](#))
- Market Veteran recruitment – on website, social media, etc. This will **make it easier** for Veterans seeking a job to better understand how they would fit in to your utility. ([Soldier for Life](#))
- Create a **Veteran Affinity** or **Employee Resource Group (ERG)** - A voluntary, employee-led group that fosters a diverse, inclusive workplace aligned with organizational mission, values, goals, business practices, and objectives. ([Employer Guide to Hire Veterans – Dept of Labor, page 13](#))

WHAT ARE MILITARY RANK STRUCTURES AND RESPONSIBILITIES?

From M.O.S to J-O-B – United States EPA – Details of Military Occupational Specialties that translate to Water and Wastewater Operations.
